[fol. 15162] IN UNITED STATES DISTRICT COURT

[Title omitted]

GOVERNMENT EXHIBIT No. 973

Stipulation

It is hereby agreed by and between the parties hereto, by their respective counsel, that on the trial of this case it will be stipulated as follows:

1. For the purpose of these proceedings only, the papers attached to this stipulation, constituting

Lists

(1) of unexpired patents relating to the glass industry, owned by Hartford-Empire Company on August 20, 1940, showing the number of each patent, the date it was issued, the name of the inventor, the amount paid for the invention, the date on which the patent application was filed and the date of assignment to Hartford-Empire Company or to its predecessor Hartford-Fairmont Company;

(2) of expired patents formerly owned by Hartford-Empire Company, showing the number of each patent, the date it was issued, the name of the inventor, the amount [fol. 15163] paid for the invention, the date on which the patent application was filed, and the date of assignment to Hartford-Empire Company or to its predecessor Hartford-Fairmont Company.

(3) of patent infringement suits brought by Hartford-Empire Company or by its predecessor—Hartford-Fairmont Company—from the date of their formations until August 20, 1940; and

(4) of all interferences in the Patent Office involving patents or patent applications in which Hartford-Empire Company or its predecessor—Hartford-Fairmont Company—were involved, from the date of their formations until August 20, 1940, and showing the interference number, the parties involved, the dates on which each of the interferences was declared and terminated and the name of the winning party,

if offered in evidence during the trial of this case, shall have the same force and effect as though offered through

the testimony of competent witnesses, subject to correction if error appears, but nothing herein shall prevent the defendant Hartford-Empire Company from introducing additional evidence in explanation of, or supplementing, such papers or any of them, or any matters therein referred to.

2. It is expressly understood and agreed that each of the parties hereto reserves the right, in the event that any one or more of said lists are offered in evidence, to object to the use or admission thereof, or of any part or parts thereof, on any ground whatsoever other than on the ground set forth in Paragraph 1 of this stipulation.

3. Neither of the parties, by entering into this stipulation, shall be deemed to have made any admission of any fact or facts for the purposes of any other or different [fol. 15164] suit or proceeding to which either or both of the parties hereto may be parties, regardless of whether such suit or proceeding is between the parties hereto or between either or both of the parties hereto and any other person or persons.

E. J. Marshall, S. S. Wall, Counsel for Defendant, Hartford-Empire Company. Samuel S. Isseks, Counsel for Plaintiff, United States of America.

List of Unexpired Patents Owned by Hartford-Empire Company, Including Dates of Issue, Application and Assignment, and Remuneration

Note: Patents marked "A" were acquired from others than employees of Hartford-Empire Company or its predecessor, Hartford-Fairmont Company, Empire Machine Company patents being included as acquired patents.

A guide to the symbols under "Remuneration" follows the list.

[fol. 15166]

	Patent No.	Inventor	Date	Filed	Assigned	Remuneration
A	1,451,707	Miller	Apr. 17, 1923	Jan. 27, 1921	July 30, 1925	M
A	1,462,427	Sterrett	July 17, 1923	Mar. 18, 1921	Sept. 23, 1936	D
A	1,462,491	Miller	July 24, 1923	Jan. 7, 1921	July 30, 1925	M

[fol. 15206]

Remuneration for Patents

1. In the foregoing list, in the column marked "Remuneration," the absence of any notation opposite the particular patents indicates (1) that they were assigned to the Hartford-Empire Company by employees in consideration of their employment, or in consideration of employment plus bonus, or (2) that the patents were derived from the Hartford-Fairmont Company at or about the time the Hartford-Empire Company was formed.

2. Certain of the patents under (2) above were obtained by the Hartford-Fairmont Company through purchase from the patentee or prior owners, prior to the formation of the Hartford-Empire Company.

3. Patents marked "E" were acquired under the agreement with Empire Machine Co., dated October 6, 1922.

4. Patents marked "Ma" form a group of three patents acquired from Wilbur S. Mayers, for $520.

5. Patents marked "Mg" form another group of three patents on inventions of Wilbur S. Mayers, acquired by agreement of September 1, 1922 from the Monograph Glass Company for $2300.

6. Patents marked "TR" form a group acquired under agreement between Hartford-Empire Company and Tucker, Reeves & Beatty, dated August 14, 1925.

7. Patents marked "H" form a group acquired under agreement between Hartford-Empire Company and Howard Automatic Glass Feeder Company, dated June 23, 1922.

Note: After the date of this agreement, George E. Howard became an employee of the Hartford-Empire Company. Hence the list contains a number of patents to Howard which do not fall in the class marked "H" in the column "Remuneration."

[fol. 15207]

8. Patents marked "UBM" form a group of patents which was acquired by Hartford-Empire Company from Alexander and Dodge, Trustees for the holders of the notes of the United Bottle Machinery Company, Bankrupt, under agreement dated February 16, 1925.

9. Patents marked "SG", "BHF", "Aus." and "Tok" were acquired from foreign glass companies under agreements providing for exchange of improvements, and involved no other remuneration.

10. Patents marked "WT" form a group of patents acquired under agreement between Hartford-Empire Company and Whitall-Tatum Company, dated September 19, 1933.

11. Patents marked "R" form a group of nine patents acquired under agreement with the Rankin Automatic Glass Feeder Company of England, dated October 18, 1928.

12. Patents marked "M" form a group of patents acquired under agreement dated July 30, 1925 between Wm. J. Miller and Hartford-Empire Company.

13. Patents marked "Rae" form a group of two U. S. and two Canadian patents purchased from J. K. B. Raeder, of Oslo, Norway, for $20,000.

14. Patents marked "L" form a group of four patents purchased from George F. Lang, Trustee, Baltimore, Maryland, for $5000.

15. Patents marked "NW" form a group acquired by agreement settling suit of Hartford-Empire Company v. Nivison-Weiskopf.

16. Patents marked "K" form a group of patents purchased from Peter Kusera, under contract dated August 25, 1932.

17. Patents marked "FG" form a group acquired by agreement of settlement between Hartford-Empire Company and the Fairmount Glass Works, dated April 30, 1934. No cash remuneration.

[fol. 15208]

18. Patents marked "IPG" form a group acquired through settlement agreement between Illinois Pacific Coast Company and Hartford-Empire Company, dated October 18, 1930.

19. Patents marked "BS" include one U. S. and one Canadian application purchased from Bailey & Sharp for $13,500.

20. Patents marked "TV" form a group acquired by settlement agreement between Hartford-Empire Company and Tygart Valley Glass Company, dated February 18, 1936.

21. Patents marked "O'N" form a group which was acquired under agreement between Hartford-Empire Company and Frank O'Neill, dated May 5, 1933.

22. Patents marked "D" form a group of 19 patents acquired at bankruptcy sale of the assets of the H. L. Dixon Company for $1500.

23. Patents marked "B" form a group of five patents purchased from A. R. Bethel, dated September 4, 1934, for $2500.

24. Patents marked "F" form a group of 14 patents purchased from the Administratrix of the Estate of Robert L. Frink, for $2000.

25. The notation "Ex" indicates that the consideration was the grant to the assignor of some patent right, and involved no money consideration.

[fol. 15217] Explanation of Symbols in Column "Remuneration"

1. Patents marked "UBM" are part of a group of patents acquired by Hartford-Empire Company from Alexander and Dodge, Trustees for the holders of the notes of the United Bottle Machinery Company, Bankrupt, under agreement dated February 16, 1925.

2. Patents marked "E" are part of a group of patents acquired under the agreement with Empire Machine Co., dated October 6, 1922.

3. Patents marked "O'N" are part of a group of patents which was acquired under agreement between Hartford-Empire Company and Frank O'Neill, dated May 5, 1933.

4. Patents marked "H" form a part of a group of patents acquired under an agreement between Hartford-Empire Company and Howard Automatic Glass Feeder Company, dated June 23, 1922.

5. Patents marked "FG" are part of a group of patents acquired by agreement of settlement between Hartford-Empire Company and the Fairmount Glass Works, dated April 30, 1934. No cash remuneration.

6. Patents marked "F" are part of a group of 14 patents purchased from the Administratrix of the Estate of Robert L. Frink, for $2000.

7. Patents marked "Ma" are part of a group of 3 patents acquired from Wilbur S. Mayers, for $520.

8. Patents marked "D" are part of a group of 19 patents acquired at bankruptcy sale of the assets of the H. L. Dixon Company, for $1500.

9. Patents marked "R" are part of a group of 9 patents acquired under agreement with the Rankin Automatic Glass Feeder Company, of England, dated October 18, 1928.

10. Patents marked "WT" are part of a group of patents acquired under agreement between Hartford-Empire [fol. 15218] Company and Whitall-Tatum Company, dated Sept. 19, 1933.

11. Patents marked "M" are part of a group of patents acquired under agreement between Wm. J. Miller and Hartford-Empire Company, dated July 30, 1925.

[fol. 15219] *B. Infringement suits brought by Hartford Companies.*

Hartford-Fairmont Co. v. *U. S. Glass Co.* (D. C. W. D. Pa.) D. C. decision dismissing bill, 2 F. (2d) 109. No decision on appeal.

Hartford-Fairmont Co. v. *Berney-Bond Glass Co.* (D. C. W. D. Pa.) Equity No. 355, May Term, 1920. Tried with *H-F Co.* v. *U. S. Glass Co.* case. Settled before decision, and defendant licensed under plaintiff's patents.

Hartford-Empire Co. v. *Obear-Nester Glass Co.* (1st suit) (D. C. E. D. Mo.) D. C. decision (not reported) mainly for plaintiff. Affirmed (C. C. A. 8) 39 F. (2d) 769. Accounting in progress. Defendant using different construction, now involved in "third suit" referred to below.

Hartford-Empire Co. v. *Obear-Nester Glass Co.* (2d suit) (D. C. E. D. Mo.) Bill dismissed, 51 F. (2d) 85; affirmed (C. C. A. 8) 71 F. (2d) 539.

Hartford-Empire Co. v. *Obear-Nester Glass Co.* (3rd suit) (D. C. E. D. Mo.) Equity No. 12,546. Bill filed April 8, 1938. Pending, not yet tried.

Hartford-Empire Co. v. *The Lamb Glass Co.* (1st suit) (D. C. S. D. Ohio, Columbus)

Hartford-Empire Co. v. *The Kearns-Gorsuch Bottle Co.* (D. C. S. D. Ohio, Columbus)

Hartford-Empire Co. v. *The Nivison-Weiskopf Co.* (D. C. S. D. Ohio, Cincinnati)

District Court decisions (not reported) partly for plaintiff and partly for defendants. C. C. A. 6 decision, 58 F. (2d) 701 partly for plaintiff and partly for defendants. Certiorari denied 287 U. S. 658 (53 S. Ct. 120). Lamb and Kearns-Gorsuch defendants licensed under patents in suit. Glass business of Nivison-Weiskopf defendant sold to General Glass Corp.

[fol. 15220] *Hartford-Empire Co.* v. *The Lamb Glass Co.* (2nd suit) (D. C. S. D. Ohio, Columbus) Equity No. 787, filed March 15, 1930. Consent decree for plaintiff, after settlement, entered Jan. 19, 1933. Defendant licensed under patent in suit.

Hartford-Empire Co. v. *Hazel-Atlas Glass Co.* (1st suit) (D. C. W. D. Pa.) D. C. decision dismissing bill, 39 F. (2d) 111. Reversed (C. C. A. 3) 59 F. (2d) 399. Defendant settled and became licensed under patent in suit.

Hartford-Empire Co. v. *Hazel-Atlas Glass Co.* (2nd suit) (D. C. N. D. W. Va.) Equity No. 157. Bill filed on or about Jan. 9, 1931. Dismissed on stipulation, after settlement, Aug. 5, 1932. Defendant licensed under patents in suit.

Hartford-Empire Co. v. *F. E. Reed Glass Co.* (D. C. W. D. N. Y.) Bill filed March 25, 1930. Supplemental bill filed Dec. 31, 1934. Pending, not tried.

Hartford-Empire Co. v. *Carr-Lowrey Glass Co.* (D. C. Md.) Equity No. 1663. Bill filed March, 1930. Dismissed by consent, after settlement, July 13, 1931. Defendant licensed under patent in suit.

Hartford-Empire Co. v. *Shawkee Mfg. Co. et al.* (1st suit) (D. C. W. D. Pa.) D. C. decision granting preliminary injunction, not reported. Affirmed on whole merits and decree for plaintiff ordered (C. C. A. 3) 68 F. (2d) 726. Certiorari denied (1st petition) 292 U. S. 640 (55 S. Ct. 773). Certiorari denied 2nd petition) 293 U. S. 600 (55 S. Ct. 117). Certiorari denied (3rd petition) 296 U. S. 635 (56 S. Ct. 157) (See 73 F. (2d) 1013 (C. C. A. 3)). Accounting in progress. No infringing operation since permanent injunction served in October, 1934.

Hartford-Empire Co. v. *Shawkee Mfg. Co. et al.* (2nd suit) (D. C. W. D. Pa.) Equity No. 2792. Bill filed May 31, 1933. Pending, not tried.

[fol. 15221] *Hartford-Empire Co.* v. *Knape-Coleman Glass Co.* (D. C. N. D. Texas, San Angelo Div.) Equity No. 201. Bill filed Oct. 11, 1934. Consent decree entered on or about April 30, 1935 and injunction issued. Defendant granted temporary license under patents in suit, with the right to renew if defendant so desired. This right the defendant declined and continued to operate without using Hartford feeder inventions.

Hartford-Empire Co. v. *Florida Glass Mfg. Co.* (1st suit) (D. C. S. D. Fla., Div. No. 1) Equity No. 818-J. Bill filed

Jan. 28, 1935. Preliminary injunction granted June, 1935. Final decree and perpetual injunction, after settlement, entered on or about Sept. 11, 1935. Defendant licensed under patent in suit.

Hartford-Empire Co. v. *Florida Glass Mfg. Co.* (2nd suit) (D. C. S. D. Fla., Div. No. 1) Equity No. 819-J. Bill filed Jan. 28, 1935. Consent decree, after settlement, entered Sept, 9, 1935 and injunction issued. Defendant licensed under patents in suit.

Hartford-Empire Co. v. *McLaughlin Glass Co.* (D. C. S. D. Cal., Cent. Div.) Equity No. 616-C. Bill filed March 26, 1935. Preliminary injunction granted July 26, 1935. Final decree entered Sept. 2, 1937 and injunction issued. No infringing operation after preliminary injunction issued.

Hartford-Empire Co. v. *McLaughlin Glass Co.* (D. C. S. D. Cal., Cent. Div.) Equity No. 617-J. Bill filed March 26, 1935. Final decree on stipulation entered Sept. 21, 1937 and injunction issued.

Hartford-Empire Co. v. *Jeannette Glass Co.* (D. C. W. D. Pa.) Equity No. 3240. Bill filed Sept. 25, 1936. Pending, not yet tried.

[fol. 15222] *Hartford-Empire Co.* v. *Swindell Bros. Inc. and Amsler-Morton Co., Intervenor* (1st suit) (D. C. Md.) D. C. decision dismissing bill, 18 F. Supp. 191. Reversed (C. C. A. 4) as to two patents and affirmed as to one, 96 F. (2d) 227. Rehearing granted, argued and previous decision of C. C. A. reaffirmed. Defendant licensed under patents in suit, as to machinery other than that involved in suit.

Anderson and Hartford-Empire Co. v. *Swindell Bros. Inc.* (2nd suit) (D. C. Md.) Equity No. 2279. Bill filed June, 1934. Dismissed on stipulation May 21, 1937.

Hartford-Empire Co. and Corning Glass Works v. *Demuth Glass Works.* (D. C. E. D. N. Y.) D. C. decision for plaintiffs 19 F. Supp. 626. Settled before decision on appeal. Defendant licensed under patent in suit.

Hartford-Empire Co. v. *Tygart Valley Glass Co.* (D. C. W. D. Pa.) Four suits, Equity Nos. 3146, 3147, 3148 and

3149. Bills filed Nov. 12, 1935. Dismissed by consent, after settlement, March 6, 1936. Defendant licensed under patents in suit.

Hartford-Empire Co. v. *Washington Mold Mach. & Foundry Co.* (D. C. W. D. Pa.) Equity No. 3348. Bill filed Nov. 13, 1937. Consent decree entered Dec. 14, 1937 and injunction issued. Defendant had made only one infringing machine.

[fol. 15223] No patent infringement suits have been brought by the Hartford-Empire Company since September 1, 1938.

[fol. 15224] September 6, 1923

GOVERNMENT EXHIBIT No. 1486

Stipulation

1. The United States of America and the defendants Glass Container Association of America, Inc., Charles R. Stevenson and Emory G. Ackerman, by their attorneys, hereby stipulate that Government Exhibits No. 1390 to 1485, contain true and accurate compilations and calculations made directly or indirectly from monthly reports made to or by Glass Container Association of America, Inc., by or to the corporations and firms in the glass container industry which reported their shipments to said Association, said data consisting of the total shipments made by said corporations and firms, and the total shipments and the "forecast" of each of said corporations and firms for each of the years from 1928 to 1938, inclusive, and for the first seven (7) months of the year 1939, subject, however, to correction if error appears; but it is expressly understood and agreed that each of the parties hereto reserves every right to object to the admission in evidence of said Government Exhibits No. 1390 to 1485, or any part thereof, on the grounds of irrelevancy, immateriality, or incompetency, and it is further understood and agreed that this stipulation shall not be taken or construed as an admission by any of the defendants that Government Exhibits No. 1390 to 1485, or any part thereof, is in anywise binding upon it. Nothing herein shall prevent any defendant from introducing additional evidence in explanation of, or supplementing, or contradicting said Government Exhibits No. 1390 to 1485, or any part thereof, or any matter therein referred to.

[fols. 15267-15388] 2. None of the parties hereto, by entering into this stipulation shall be deemed to have made any admission of any fact or facts for the purpose of any other or different suits or proceedings to which any of the parties hereto may be parties, regardless of whether such suit or proceeding is between the parties hereto or between either

or both of the parties hereto and any other person or persons.

E. B. Freed, United States Attorney.

Luther Day, Attorney for Glass Container Association of America, Inc.; Charles R. Stevenson, and Emory G. Ackerman.

[fol. 15389] In United States District Court

[Title omitted]

Government Exhibit No. 1568

Stipulation as to Classification of Glass Industry

It is hereby agreed by and between the parties hereto, by their respective counsel, that on the trial of this case it will be stipulated as follows:

1. For the purpose of these proceedings only and without prejudice to any of the parties hereto in any other suits or proceedings between the parties hereto or to any other suits or proceedings to which any one or more of the parties hereto may be parties, or otherwise, the principal divisions of the glass industry are as follows:

(1) Glass containers;
(2) Non-container ware; and
(3) Flat glass.

The products of the glass container division of the industry are classified as follows:

(1) Narrow neck bottles used as food containers;
(2) Wide mouth bottles and jars used for food containers;
(3) Pressed tumblers (not including domestic jelly glasses);
(4) Beer bottles;
(5) Liquor bottles;

[fol. 15390] (6) Other pressure and non-pressure bottles used for beverages;

(7) Medicine and toilet bottles, including prescription ware, proprietary ware, perfumery ware and toilet ware;
(8) Milk and cream bottles;
(9) Domestic fruit jars;
(10) Domestic jelly glasses; and
(11) Miscellaneous containers.

The non-container ware division includes the following products among others:

(1) Illuminating glassware;
(2) Technical and industrial glassware, including
    (a) Glass parts for electrical devices,
    (b) Glass insulators and insulation,
    (c) Signal glassware,
    (d) Vacuum glassware,
    (e) Cooking glassware;
(3) Lamp chimneys and lantern globes;
(4) Scientific glassware, including laboratory, surgical and hospital glassware, and tubing and rod;
(5) Tumblers, automatically made;
(6) Miscellaneous non-containers, automatically made;
(7) Automobile glassware (lenses and other signal glassware);
(8) Blown table glassware, including stem ware, tumblers and kindred items made by hand or semi-automatic or automatic process;
(9) Miscellaneous blown non-containers, made by hand or semi-automatic process; such as glassware for vending and display devices, cylinders, jars, lamp bases, lamp columns, lamp stems and parts, sacramental glassware, acquaria, seed cups, glassware for coffee- and tea-making devices, and other kindred groups;
(10) Miscellaneous pressed non-containers, not automatically made, such as table ware, stem ware, tumblers, jars, bar goods, soda-fountain glassware, hotel- and restaurant-supply glassware, kitchen glassware, stationers' glassware, and other kindred groups;

(11) Glass marbles;
(12) Structural glassware;
(13) Optical glassware;
(14) Miscellaneous glassware, such as glass novelties, glass specialties, private-mold articles.

[fol. 15391] 2. Nothing herein shall prevent any of the defendants from introducing additional evidence in explanation of, or supplementing, any of the matters referred to in Paragraph 1 hereof.

3. None of the parties, by entering into this stipulation, shall be deemed to have made any admission for the purposes of any other or different suit or proceeding to which any one or more of the parties hereto may be parties, regardless of whether such suit or proceeding is between any of the parties hereto or between any one or more of the parties hereto and any other person or persons.

[fol. 15408] IN UNITED STATES DISTRICT COURT

GOVERNMENT EXHIBIT No. 1572

Stipulation

It is hereby stipulated and agreed by and between the parties hereto, by their respective counsel, as follows:

1. For the purpose of these proceedings only and without prejudice to any of the parties hereto in any other suits or proceedings between the parties hereto or to any other suits or proceedings to which any one or more of the parties hereto may be parties, or otherwise, if at the trial of this case, any of the following papers attached to this stipulation, constituting

(1) Balance Sheets for the period from December 31, 1931 to April 24, 1937;

(2) Statement of Profit and Loss and Earned Surplus for the period from April 1, 1931 to April 24, 1937; and

(3) Statement of Cost of Sales by calendar years from date of organization—April 4, 1931, to April 24, 1937, of General Glass Corporation,

shall be offered in evidence by either of the parties hereto, the data contained therein shall be deemed to be correct, but subject to correction if error should appear, and said papers may be offered in evidence herein without further proof thereof, subject to objection as to their admissibility, relevancy, materiality, privilege or any other ground of objection whatsoever, save only as to the correctness thereof as above stated.

[fol. 15409] 2. None of the parties, by entering into this stipulation, shall be deemed to have made any admission for the purpose of any other or different suit or proceeding to which any one or more of the parties hereto may be parties, regardless of whether such suit or proceeding is between any of the parties hereto or between any one or more of the parties hereto and any other person or persons.

3. Anchor Hocking Glass Corporation, by entering into this stipulation, shall not be deemed to have waived or conceded the relevancy or materiality of any fact contained in the stipulation or in the papers attached to this stipulation, and no objection shall be required to be entered on the record to preserve the right of Anchor Hocking Glass Corporation to question such relevancy or materiality at any stage of the proceeding.

4. Anchor Hocking Glass Corporation by entering into this stipulation, shall not be estopped or precluded from referring to or using its original books of account, papers or documents, or the oral testimony of witnesses familiar with the facts, to explain any statement, fact or figure contained in this stipulation or in the papers attached to this stipulation, to the extent permitted by the rules of evidence.

5. Neither this stipulation nor any other stipulation heretofore or hereafter entered into in this case, by any party to this suit shall be filed in this case or become evidence therein prior to the trial thereof, and then only if the Court shall direct that the same be filed or received in evidence; nor shall this stipulation be used for any purpose except in this case; and if this case should not, for any reason be tried, this stipulation, and all copies thereof, shall be re-
[fol. 15410] turned by the plaintiff to the said defendant.

Samuel S. Isseks, Counsel for Plaintiff, United States of America. Wm. G. Miller, Counsel for Defendant, Anchor Hocking Glass Corporation.

[fol. 15497] IN UNITED STATES DISTRICT COURT

[Title omitted]

GOVERNMENT EXHIBIT No. 1576.

Stipulation as to Documents

It is hereby agreed by and between the parties hereto, by their respective counsel, that on the trial of the above entitled cause it will be stipulated as follows:

1. For the purpose of that proceeding only, the papers attached to this stipulation consisting

(1) List of United States patents owned by Ball Brothers Company on October 15, 1940 (5 pages)

(2) List of stockholders of Ball Brothers Company as of July 15, 1940 (2 pages)

(3) Notation of stock holdings by Ball Brothers officials in competing glass companies (1 page)

(4) Prices of Mason jars from December, 1919 up to and including December 31, 1939 (5 pages)

(5) Prices of jellies from December, 1919 up to and including December 31, 1939 (3 pages)

[fol. 15498] (6) Jar and jelly shipments during the years 1923 to 1939, inclusive (2 pages)

(7) Beer bottle shipments during the years 1933 to 1939, inclusive (1 page)

(8) Comparative balance sheet December 31, 1938 and 1939 (1 page)

(9) Comparative profit and loss statement 1938 and 1939 (1 page)

(10) Comparative balance sheet December 31, 1923 to 1937, inclusive (1 page)

11. Comparative profit and loss statement calendar years 1923 to 1937, inclusive (1 page)

(12) Net profit after Federal taxes calendar years 1923 to 1939, inclusive (2 pages)

if offered in evidence during the trial of this case shall have the same force and effect as though offered through the tes-

timony of competent witnesses, but nothing herein shall prevent defendant, Ball Brothers Company, from introducing additional evidence in explanation or supplementing such papers or any of them or any matters therein referred to.

2. It is expressly understood and agreed that each of the parties hereto reserves the right, in the event that any of said papers is offered in evidence, to object to the use or admission thereof on any ground whatsoever, other than the ground covered by paragraph 1 of this stipulation.

[fol. 15499] 3. Neither of the parties hereto, by entering into this stipulation, shall be deemed to have made any admission of any fact or facts for the purposes of any other or different suit or proceeding to which either of the parties hereto may be a party, regardless of whether such suit or proceeding is between the parties hereto or between either or both of them and any other person, persons or party.

Samuel S. Isseks, Counsel for Plaintiff, United States of America. Wilber Owen, Carl F. Schaffer, Counsel for Defendant, Ball Brothers Company.

October —, 1940.

[fol. 15500] January 26, 1938

Following is a list of patents covering the various improvements and inventions purchased, developed, invented and patented since March 1, 1913 by Ball Brothers Company.

Number	Dated	Inventor	Inventions
1,100,345	June 16, 1914	A. L. Bingham	Glass Handling Mechanism
1,125,895	Jan. 19, 1915	A. L. Bingham	Glass Machine
1,182,448	May 9, 1916	A. L. Bingham	Glass Working Machine
1,189,811	July 4, 1916	J. B. Graham & F. R. Miller	Means for producing Bottles
1,198,979	Sept. 19, 1916	F. L. O. Wadsworth	Working Glass, etc.
1,215,507	Feb. 13, 1917	L. A. Drey	Drop Feeding Device
1,241,790	Oct. 2, 1917	F. L. O. Wadsworth	Cutting Plastic Glass, etc.
1,252,823	Jan. 8, 1918	L. L. Ludington	Mechanical Movement
1,263,485	Apr. 23, 1918	S. M. Thornburg	Jar Transferring Machine
1,275,178	Aug. 6, 1918	F. L. O. Wadsworth	Glass Working
1,281,083	Oct. 8, 1918	R. E. McCauley	Mold Loading Device
1,307,527	June 24, 1919	F. L. O. Wadsworth	Glass Working
1,311,474	July 29, 1919	F. L. O. Wadsworth	Glass Working Apparatus & Process
1,317,827	Oct. 7, 1919	A. L. Schram	High Speed Glass Delivering Apparatus
1,322,318	Nov. 18, 1919	R. E. McCauley	Mold Loading Device
1,323,507	Dec. 2, 1919	F. L. O. Wadsworth	Glass Working
1,325,527	Dec. 23, 1919	J. P. Mingle	Glassware Transferring Machine
1,326,235	Dec. 30, 1919	F. L. O. Wadsworth	Glass Working Machine
1,333,143	Mar. 9, 1920	F. L. O. Wadsworth	Glass Working Machine
1,334,725	Mar. 23, 1920	F. L. O. Wadsworth	Method of Manipulating Glass & Similar Substances
1,338,214	Apr. 24, 1920	S. Davidson & A. L. Schram	Apparatus for Delivering Mold Charges from Glass Furnaces
1,340,366	May 18, 1920	A. L. Bingham	Glass Working Machine
1,352,119	Sept. 7, 1920	L. A. Drey & J. L. Hiatt	Fruit Jar Fastener
1,375,336	Apr. 19, 1921	F. L. O. Wadsworth	Glass Working Machine
1,353,276	Sept. 21, 1920	A. L. Schram	Drop Feeding Device
[fol. 15501]			
1,436,455	Nov. 21, 1922	J. P. Mingle	Lehr Feeder
1,464,698	Aug. 14, 1923	James H. Delany	Manufacturer of Heat-Insulating Articles
1,482,762	Feb. 5, 1924	Thomas C. Moorshead	Glass-Shaping Machines
1,527,708	Feb. 24, 1925	A. L. Schram et al	Device for Cutting Molten Material
1,573,635	Feb. 16, 1926	L. A. Drey	Feeding Glass to Forming Machines
1,573,636	Feb. 16, 1926	L. A. Drey	Feeding Glass into Molds
1,608,326	Nov. 23, 1926	H. B. Lawson	Apparatus for Feeding Glass
1,634,560	July 5, 1927	A. L. Schram	Drop Feeding Device
1,655,190	Jan. 3, 1928	A. E. Leipold	Feeding Glass into Molds
1,692,774	Nov. 20, 1928	Lewis Grafflin	Paper and Paper Stock and Methods of Producing the Same
1,771,576	July 29, 1930	Harry B. Lawson	Take-Off Devices for Glass Forming Machines
1,802,031	Apr. 21, 1931	Thomas C. Moorshead	Glass Shaping Machines
1,807,857	June 2, 1931	Thomas C. Moorshead	Glass Shaping Machines
1,812,534	June 30, 1931	F. E. Jewett	Method and Apparatus for Feeding Molten Glass
1,838,435	Dec. 29, 1931	Thomas C. Moorshead	Glass Shaping Machines

Number	Dated	Inventor	Invention
1,853,417	Apr. 12, 1932	Clarence I. Hall	Lehr Stackers
1,906,528	May 9, 1933	Edwin E. Milner	Leers
1,918,552	July 18, 1933	Joseph P. Mingle	Wiring Machines
1,935,527	Nov. 14, 1933	Walter R. Sterrett	Apparatus for Feeding Molten Glass
1,942,990	Jan. 9, 1934	William C. Ludington	Apparatus for Producing Deep Cups from Sheet Metal
1,953,030	Mar. 27, 1934	Walter R. Sterrett	Glass Shears
1,965,438	July 3, 1934	Andrew H. Stewart	Apparatus for Feeding Glass
19,253-R	July 24, 1934	Edwin E. Milner	Leer Feeders
1,979,878	Nov. 6, 1934	John W. Harding	Conveying Mechanism
1,984,223	Dec. 11, 1934	Lawrence L. Ludington	Machines for Applying Sealing Annuli to Receptacle Covers
1,986,587	Jan. 1, 1935	Lawrence L. Ludington	Methods of Sectionalizing Tubes
[fol. 15502]			
2,035,901	Mar. 31, 1936	Lawrence L. Ludington	Pressure Cookers
2,045,303	June 23, 1936	Lawrence L. Ludington	Pressure Cookers
2,048,983	July 28, 1936	Frank L. O. Wadsworth	Glass Feeders
2,049,786	Aug. 4, 1936	Frank L. O. Wadsworth	Glass Feeders
2,049,787	Aug. 4, 1936	Frank L. O. Wadsworth	Glass Feeders
2,049,788	Aug. 4, 1936	Frank L. O. Wadsworth	Glass Feeders
2,053,140	Sept. 1, 1936	William T. Exton	Jar Sealing Rings
2,053,381	Sept. 8, 1936	Andrew H. Stewart	Glass Feeding Methods and Apparatus
2,062,619	Dec. 1, 1936	Andrew H. Stewart	Glass Feeding Apparatus
2,062,620	Dec. 1, 1936	Andrew H. Stewart	Methods of and Apparatus for Feeding Glass

[fol. 15534]

Notes:

1. During 6 months of 1924 and from 1932 to date, freight was allowed cheapest way rail and/or water on shipments with a net value of $25.00 upward. The estimated freight allowed has been deducted for the years 1932 on in arriving at the above figures.

2. Actual net prices to Corning may be lower than the above figures in some cases, because of special sales prices in some years and because pieces packed in sets yield a lower net than when sold individually.

3. Prices to Mounters for the year 1924 are not available and are left blank. Prices to Mounters on bread pans, cake dishes, and custard cups are also left blank as these items are not purchased by this class of trade.

[fol. 15569] IN UNITED STATES DISTRICT COURT

GOVERNMENT EXHIBIT No. 1583

[Title omitted]

Stipulation

It is hereby agreed by and between the parties hereto, by their respective counsel, that on the trial of this case it will be stipulated as follows:

1. For the purpose of these proceedings only, the papers attached to this stipulation, constituting

(1) A list of the stockholders of Hartford-Empire Company as of September 20, 1938, showing the number of shares owned or held by each stockholder; and

(2) A list of the stockholders of Hartford-Empire Company as of December 31, 1939, showing the number of shares owned or held by each stockholder,

if offered in evidence during the trial of this case, shall have the same force and effect as though offered through the testimony of competent witnesses, but nothing herein shall prevent the defendant Hartford-Empire Company from introducing additional evidence in explanation of, or supplementing, such papers or any of them, or any matters therein referred to.

[fol. 15570] 2. It is expressly understood and agreed that each of the parties hereto reserves the right, in the event that either of said lists is offered in evidence, to object to the use or admission thereof on any ground whatsoever other than the ground covered by Paragraph 1 of this stipulation.

3. Neither of the parties hereto, by entering into this stipulation, shall be deemed to have made any admission of any fact or facts for the purposes of any other or different suit or proceeding to which either or both of the parties hereto may be parties, regardless of whether such suit or proceeding is between the parties hereto or between either or both of the parties hereto and any other person or persons.

Samuel S. Isseks, Counsel for Plaintiff, United States of America.

E. J. Marshall, S. S. Wall, Counsel for Defendant, Hartford-Empire Company.

[fol. 15586] IN UNITED STATES DISTRICT COURT

[Title omitted]

GOVERNMENT EXHIBIT No. 1584

Stipulation

It is hereby agreed by and between the parties hereto, by their respective counsel, that on the trial of this case it will be stipulated as follows:

1. For the purpose of these proceedings only, the papers attached to this stipulation, constituting

Tables showing the royalties paid to Hartford-Empire Company by each of its licensees in each of the years from 1923 to 1939, inclusive,

if offered in evidence during the trial of this case, shall have the same force and effect as though offered through the testimony of competent witnesses, but nothing herein shall prevent the defendant Hartford-Empire Company from introducing additional evidence in explanation of, or supplementing, such papers or any of them, or any matters therein referred to.

[fol. 15587] 2. It is expressly understood and agreed that each of the parties hereto reserves the right, in the event that any one or more of said tables are offered in evidence, to object to the use or admission thereof on any ground whatsoever, other than on the ground set forth in Paragraph 1 of this stipulation.

3. Neither of the parties, by entering into this stipulation, shall be deemed to have made any admission of any fact or facts for the purposes of any other or different suit or proceeding to which either or both of the parties hereto may be parties, regardless of whether such suit or proceeding is between the parties hereto or between either or both of the parties hereto and any other person or persons.

Samuel S. Isseks, Counsel for Plaintiff, United States of America.

E. J. Marshall, S. S. Wall, Counsel for Defendant, Hartford-Empire Company.

[fol. 15588] Tables showing the royalties paid to Hartford-Empire Company by each of its licensees in each of the years from 1923 to 1939, inclusive.

[fol. 15686] Government Exhibit 1585

(Stipulated Papers)

Hartford-Empire Company

Hartford, Connecticut

Cable Address "Emhart"

Arthur T. Safford, Jr.
Secretary and Counsel

October 13, 1938

Mr. V. C. Kramer
Department of Justice
Washington, D. C.

Dear Mr. Kramer:

As supplemental to our letter addressed to Mr. Hugh M. Cox, dated September 13, 1938, we are offering the following information.

The rates given below are those for the general container field and do not include certain miscellaneous rates for specific articles of ware.

The rates of royalty for the Paddle Feeder and for the Paddle Needle Feeder were as follows:

	Per Gross
Under 3 oz. wt.	8 cents
3 oz. wt. and not exceeding 5 oz. wt.	9 cents
Over 5 oz. wt. and not exceeding 10 oz. wt.	10 cents
Over 10 oz. wt. and not exceeding 13 oz. wt.	11 cents
Over 13 oz. wt. and not exceeding 16 oz. wt.	12 cents
Over 16 oz. wt. and not exceeding 20 oz. wt.	13 cents
Over 20 oz. wt. and not exceeding 26 oz. wt.	15 cents
Over 26 oz. wt. and not exceeding 31 oz. wt.	17 cents
Over 31 oz. wt. and not exceeding 36 oz. wt.	19 cents
Over 36 oz. wt. and not exceeding 40 oz. wt.	23 cents

The weights above specified are the weights of the finished articles.

The rates for milk bottles were 20 cents per gross for quarts, 15 cents per gross for pints and 12½ cents per gross for one-half pints.

After 1926 a refund of 7 cents per gross was given on all production of milk bottles in excess of 500,000 gross per year. This applied to the Hartford Single Feeder as well as to the Paddle Needle Feeder.

As of January 1, 1936 the royalty rates on the milk bottles were modified and thereupon became the standard rates of royalty indicated on Page 1 of the letter above referred to, and the refund no longer applied.

[fol. 15687] The Paddle Feeder and Paddle Needle Feeder rates for fruit jars was 12 cents per gross. This is the rate still applicable for the Hartford Single Feeders.

On January 1, 1933, the royalty rates on pressed ware were reduced 25 per cent. They had previously been the standard blown ware rates, except in the case of pressed tumblers which from July 1, 1927 had been figured at 75 per cent of the blown ware rate, and are now as indicated on Page 1 of the letter above referred to.

Prior to May 1, 1936 the royalty rate for ware of 2 ounce weight and under was 10 cents per gross. This was modified to the present rate as indicated on Page 1 of the letter above referred to.

The royalties for the use of Hartford Lehrs was originally $1200 per year. On January 1, 1927 it was reduced

to $100 per month. On July 1, 1932 it was reduced to $5 per day. On January 1, 1935 it was reduced to $2.50 per day—the present rate.

The royalties payable for the Hartford Individual Section Forming Machines at the start was one-quarter of the then existing feeder royalty. This on May 1, 1931 was reduced by half. On January 1, 1935 it became 2 cents per gross—the existing rate.

Very truly yours,
Hartford-Empire Company
Arthur T. Safford, Jr.
Secretary.

Arthur T. Safford, Jr.
MEO

P. S.—With respect to the foregoing, we should like to make clear that no Paddle Feeders or Paddle Needle Feeders are now in use.

[fol. 15688] Hartford-Empire Co.—Royalties

H-E Investment Statement

Hartford-Empire Company

Hartford, Connecticut

Cable Address "Emhart"

Arthur T. Safford, Jr.
Secretary and Counsel

September 13, 1938
Tuesday

Hugh M. Cox, General Counsel
Anti-Trust Division, Department of Justice
Washington, D. C.

Dear Sir:

At the request of your representative, Mr. Seymour D. Lewis, we have prepared the analysis which follows of the royalties applicable to Hartford-Empire equipment.

Except as noted below in the case of the Hartford Lehr, the royalty is based upon the weight of each individual

piece of merchantable glassware produced by the named equipment.

(1) The rates applicable to all Hartford Single Feeders and all other feeders licensed and leased (except as noted below in paragraphs 2, 3, 4, 5 and 6) are as follows:

	Blown or Pressed and Blown Per Gross	Purely Pressed * Per Gross
½ oz. wt. and under	7-½¢	7-½¢
Over ½ oz., not exceeding 1 oz.	8	7-½
1 oz. 1-½ oz.	9	7-½
1½ oz. 2 oz.	10	7-½
2 oz. 4 oz.	11	8-¼
4 oz. 8 oz.	12	9
8 oz. 12 oz.	13	9-¾
12 oz. 13 oz.	14	10-½
13 oz. 16 oz.	15	11-¼
16 oz. 20 oz.	16	12
20 oz. 26 oz.	18	13-½
26 oz. 30 oz.	21	15-¾

[fol. 15689]

	Blown or Pressed and Blown Per Pound	Purely Pressed * Per Pound
Over 30 oz., not exceeding 96 oz	1/12¢	1-16/
Over 96 oz., not exceeding 128 oz.	1/6¢	1/8¢

(2) The following rates apply to headlight lenses, spotlight lenses, ditchlight lenses, lenses for cowl lights and tail and stoplight lenses, when made by any of the foregoing feeders:

½ once weight and under		9½ Cents
Over ½ oz. wt., not exceeding 1 oz.	weight..	10 Cents
1 oz. 1½ oz.	weight..	11¼ Cents
1½ oz. 2 oz.	weight..	12½ Cents
2 oz. 4 oz.	weight..	13¾ Cents

* Purely Pressed, that is, produced by an operation which consists solely of pressing without the intervention of any air in the mold for the purpose of changing the shape of the article to be produced.

4	oz.	8	oz. weight..	15 Cents
8	oz.	12	oz. weight..	16¼ Cents
12	oz.	13	oz. weight..	17½ Cents
13	oz.	16	oz. weight..	18¾ Cents
16	oz.	20	oz. weight..	20 Cents
20	oz.	26	oz. weight..	22½ Cents
26	oz.	30	oz. weight..	26¼ Cents
30	oz.	96	oz. weight.	⅛¢ per pound

Forty per cent (40%) of these royalties are payable to Corning Glass Works for the right to license ware which otherwise falls within their exclusive ware field, Division *B* [fol. 15690] under the Agreement of October 6, 1922, between Hartford-Empire Company, Corning Glass Works et al.

These rates likewise apply to the Hartford Individual Section Machine leased to the T. C. Wheaton Company when it is used for the production of ware falling within the scope of Ware Division C of the Corning contract above referred to.

(3) (a) The feeder royalty rates for lantern globes are 18 Cents per gross.

(b) The feeder royalty rates on marbles are 10 Cents per 1000.

(c) The feeder royalty rates on fruit jars for household use up to ½ gallon capacity are 12 Cents per gross.

(4) The royalty rates payable for the use of the *Howard* Feeder are as follows:

		Per Gross
10 ounces or less		.10
Over 10 oz. wt., not exceeding 13 oz. wt.		.11
13	16	.12
16	20	.13
20	26	.15
26	31	.17
31	36	.19
36	40	.23
40	72	1/12¢ per lb.

(5) Under the Agreement dated November 27, 1916 between Tucker, Reeves & Beatty (assigned to Hartford-

Empire Company) and Federal Glass Company, there are certain special royalties payable on certain limited types of tumblers.

[fol. 15691] (6) The rates applicable to Corning Glass Works are those specified in the Agreement of October 6, 1922, "normal" royalty as therein specified being the Hartford Single Feeder rates above noted.

(7) The royalties payable for all Hartford Individual Section Forming Machines are 2 Cents per gross, except as noted above in Paragraph (2). These are in addition to the feeder royalties.

(8) The royalties payable for all types of Hartford Lehrs are $2.50 per day per lehr for each day used.

(9) Under the contract between Empire Machine Company (Hartford-Empire assignee) and American Thermos Bottle Company dated December 23, 1920, the royalty rates for cylinders for thermos bottles are ¼ of a Cent for Pints, ½ of a Cent for Quarts, and proportionate to these amounts for other sizes.

(10) The minimum royalties on the Hartford-Empire equipment is as follows:

Feeders ..... $1500. per year
Individual Section Machine .. 125. per year per Section
Hartford Lehrs ..... 400. per year

These minimums are payable only if the production royalties referred to in Paragraphs 1-9 do not equal the minimums. There are certain exceptions to these minimums but they are not detailed—as they represent a negligible portion of the company's income.

Very truly yours, Hartford-Empire Company
Arthur T. Safford, Jr. Secretary. Arthur T. Safford, Jr. gp.

[fol. 15692] Correcting Memorandum of letter to Mr. V. C. Kramer of the Department of Justice from Hartford-Empire Company by A. T. Safford, Jr., its Secretary, dated October 13, 1938:

1. *P. N. Feeder Rates* Over 40 oz. weight not shown in letter. Over 40 up to 72 oz. is 1/12c per lb.

2. *Milk Bottle Rates* ½ Pints shown in letter as 12½c per gross. Correct rate is 12c per gross.

3. *Refund on Milk Bottle Production* Effective 1/1/26—letter states after 1926.

4. *I. S. Machine Royalty Rates* Letter states—I. S. Machine Royalty Rates in effect at start were ¼ of Feeder Rates. This should be ½ of Feeder Rates.

5. *Fruit Jar Rates* Letter reads—up to ½ gallon—should be up to and including ½ gallon.

Royalties Lehr should read The royalties for the use of Hartford Lehrs was originally $1200 per year payable quarterly. On January 1, 1927 it was reduced to $100 for each calendar month in which lehr was used. On July 1, 1932 it was reduced to $5 for each day which lehr was used not to exceed $100 a month. On January 1, 1935 it was reduced to $2.50 per day—the present rate. These rates did not apply to wide lehrs which were as follows:

Originally $1500 per annum payable quarterly and reduced January 1, 1927 to $125 per month, July 1, 1931 reduced to $100 per month, July 1, 1932 reduced to $5 for each day which lehr was used not to exceed $100 per month. On January 1, 1935 it was reduced to $2.50 per day—the present rate.

On Thatcher Type C Lehrs from July 1, 1926 to October 1, 1927 royalties were $1000 subject to an additional $200 per lehr per year if they had less than 15 lehrs under license or an additional $100 per lehr per year if they had more than 15 lehrs and less than 25 lehrs.

[fol. 15693] GOVERNMENT EXHIBIT No. 1586

IN UNITED STATES DISTRICT COURT

Stipulation

The United States of America and the defendant Hartford-Empire Company, by their respective attorneys, hereby agree that on the trial of this case it will be stipulated as follows:

1. That the defendant Hartford-Empire Company is authorized to do business in a number of the states of the United States.

2. That in 1937, 1938 and 1939, Hartford-Empire Company employees installed, altered, repaired or inspected

Hartford-Empire machinery in a number of the states of the United States.

3. That Hartford-Empire Company licensees have manufactured glass containers and other glass products on Hartford-Empire machinery in a number of the states of the United States.

[fol 15694] 4. That Hartford-Empire Company does not own, and never has owned, any stock in any of the other corporations which are defendants in this suit.

Nothing herein shall prevent the Hartford-Empire Company from introducing evidence in explanation of or supplementing any or all of the matters referred to in the foregoing paragraphs 1 to 4 inclusive.

It is expressly understood and agreed that each of the parties hereto reserves the right, in the event that this stipulation or any part thereof is offered in evidence, to object to the use or admission thereof on any ground whatsoever other than on the ground of lack of proof of the facts stated in the foregoing paragraphs 1 to 4 inclusive.

Neither of the parties, by entering into this stipulation, shall be deemed to have made any admission of any fact or facts for the purposes of any other or different suit or proceeding to which either or both of the parties hereto may be parties, regardless of whether such suit or proceeding is between the parties hereto or between either or both of the parties hereto and any other person or persons.

E. P. Marshall, S. S. Wall, Counsel for Defendant, Hartford-Empire Company. Samuel S. Isseks, Counsel for Plaintiff, United States of America.

[fol. 15695] Government Exhibit No. 1587

In United States District Court

[Title omitted]

Stipulation

It is hereby stipulated and agreed by and between the parties hereto, by their respective counsel, as follows:

1. For the purpose of these proceedings only and without prejudice to any other suits or proceedings between the

parties hereto or to any other suits or proceedings to which any one or more of the parties hereto may be parties, or otherwise, the papers attached to this stipulation, constituting

The balance sheets and profit and loss statements of Liberty Glass Company for each of the years from 1924 to 1937, inclusive, shall have the same force and effect as though offered and received in this proceeding through the testimony of competent witnesses.

2. None of the parties, by entering into this stipulation, shall be deemed to have made any admission for the purposes of any other or different suit or proceeding to which any one or more of the parties hereto may be parties, regardless of whether such suit or proceeding is between any of the parties hereto or between any one or more of the parties hereto and any other person or persons.

3. None of the parties, by entering into this stipulation, shall be deemed to have conceded the relevancy or materiality of any fact contained in the papers attached to this stipulation, and no objection shall be required to be entered [fols. 15696-15706] on the record to preserve the right of any party to question such relevancy or materiality at any stage of the proceeding.

Earl Foster, Counsel for Defendant, Liberty Glass Company. Samuel S. Isseks, Counsel for Plaintiff, United States of America.

STIPULATION BETWEEN PLAINTIFF AND LYNCH CORPORATION WITH RESPECT TO OWNERSHIP OF STOCK OF LYNCH CORPORATION

The United States of America and defendant Lynch Corporation by their respective attorneys hereby stipulate and agree that a list of the stockholders of Lynch Corporation as of August 5, 1940, discloses that none of the defendants other than officers and directors of Lynch Corporation held stock in Lynch Corporation except as follows:

Name	Address	No. Shares
Isaac J. Collins	Lancaster, Ohio	112
Abbott W. Sherwood	Toledo, Ohio	34
Frank P. Nesbit	Toledo, Ohio	11
Harry E. Collins	Toledo, Ohio	1100
Collin, Norton & Co. of which Harry E. Collin is a partner	Toledo, Ohio	1875
Robert H. Levis	Alton, Illinois	544
J. H. McNash	Wheeling, W. Virginia	13
C. D. King	Lancaster, Ohio	200

The total number of shares of Lynch Corporation outstanding as of December 31, 1939, was 140,977.

Samuel S. Isseks, Counsel for United States of America. Seln Fess, Counsel for defendant Lynch Corp.

[Title omitted]

STIPULATION AS TO STATEMENTS OF OWENS-ILLINOIS GLASS COMPANY

The plaintiff in the above-entitled action, having requested the defendant Owens-Illinois Glass Company to enter into stipulations with respect to certain facts which said defendant, for the reasons herein set forth, asserts its

inability to stipulate, it is hereby agreed by and between the parties hereto, by their respective counsel, that on the trial of this case it will be stipulated as follows:

1. For the purpose of these proceedings only, the five statements hereto attached, made by Owens-Illinois Glass Company, if offered in evidence during the trial of this case, shall have the same force and effect as though offered through the testimony of competent witnesses, but nothing herein shall prevent the defendant Owens-Illinois Glass Company from introducing additional evidence in explanation of, or supplementing, such statements or any of them, or any matters therein referred to.

2. It is expressly understood and agreed that each of the parties hereto reserves the right, in the event that any of said statements are offered in evidence, to object to the use or admission thereof on any ground whatsoever other [fol. 15848-15903] than the ground covered by Paragraph 1 of this stipulation.

3. Neither of the parties hereto, by entering into this stipulation, shall be deemed to have made any admission of any fact or facts for the purposes of any other or different suit or proceeding to which either or both of the parties hereto may be parties, regardless of whether such suit or proceeding is between the parties hereto or between either or both of the parties hereto and any other person or persons.

Samuel S. Isseks, Counsel for Plaintiff, United States of America. L. T. Williams, H. A. Middleton, Counsel for Defendant Owens-Illinois Glass Company.

Dated June 16, 1941.

[fol. 15904] GOVERNMENT EXHIBIT No. 1595

IN UNITED STATES DISTRICT COURT

[Title omitted]

STIPULATION

It is hereby agreed by and between the parties hereto, by their respective counsel, that on the trial of this case it will be stipulated as follows:

1. For the purpose of these proceedings only, the papers attached to this stipulation, constituting tables and lists as follows:

(1) Table showing number of gross of milk bottles shipped by Owens-Illinois Glass Company for the years 1938 and 1939;

(2) Dairy containers price lists of Owens-Illinois Glass Company issued under dates of April 4, 1938, and October 10, 1939, respectively;

(3) Table showing number of gross of beer bottles shipped by Owens-Illinois Glass Company and subsidiaries for the years 1933 to 1939, inclusive;

(4) List of prices for each size and shape of beer bottles sold by Owens-Illinois Glass Company and subsidiaries for the years 1938 and 1939;

(5) Table entitled "Infringement Suits" showing all suits filed by Owens-Illinois Glass Company (The Owens Bottle Company for the years prior to 1928) from 1923 to 1939, inclusive, including

(a) Name of plaintiff,

(b) Name of defendant,

(c) Date filed,

(d) Date on which suit filed.

(e) Name of infringing devices,

(f) Patent infringed, and

(g) Present status of suit,

[fol. 15905] (6) Table showing the number of shares of stock owned by Owens-Illinois Glass Company and its of-

ficers and directors on December 31, 1937, December 31, 1938, and December 31, 1939, in each of the following corporations: Hartford-Empire Company, Corning Glass Works, Empire Machine Company, Hazel-Atlas Glass Company, Anchor Hocking Glass Corporation, Ball Brothers Company, Thatcher Manufacturing Company, Liberty Glass Company, and Lynch Corporation,

if offered in evidence during the trial of this case, shall have the same force and effect as though offered through the testimony of competent witnesses, but nothing herein shall prevent the defendant Owens-Illinois Glass Company from introducing additional evidence in explanation of, or supplementing, such papers or any of them, or any matters therein referred to.

2. It is expressly understood and agreed that each of the parties hereto reserves the right, in the event that any one or more of said papers are offered in evidence, to object to the use or admission thereof on any ground whatsoever other than on the ground set forth in Paragraph 1 of this stipulation.

3. Neither of the parties, by entering into this stipulation, shall be deemed to have made any admission of any fact or facts for the purposes of any other or different suit or proceeding to which either or both of the parties hereto may be parties, regardless of whether such suit or proceeding is between the parties hereto or between either or both of the parties hereto and any other person or persons.

E. B. Freed, Samuel S. Isseks, Counsel for Plaintiff, United States of America.

Lloyd T. Williams, Henry A. Middleton, Counsel for Defendant Owens-Illinois Glass Company.

Dated Sept. 10, 1940.

SUBJECT TO CHANGE WITHOUT NOTICE.

DAIRY CONTAINER PRIVATE MOLD AND LETTERING PLATE INFORMATION

GENERAL:

Where special or intricate designs, monograms, or trademarks are wanted on either private molds, side or bottom plates, contact the Dairy Container Division as it is frequently necessary to charge extra for this special work.

The charges listed below apply only for lettering. The molds or plates remain the property of the Owens-Illinois Glass Company.

PRIVATE MOLD POLICY:

We will furnish new private molds free to the extent of one mold for each car ordered or contracted to be withdrawn within one year. The initial shipping order must be for not less than 35 gross for each mold so made. If molds are furnished not in accordance with the above, they shall be charged for on the basis of the following schedule:

$25.00 - To letter one quart mold.
20.00 - To letter one pint, 10 oz., 1/3 Qt. milk mold, or 12 and 16 oz. Cheese Jar.
15.00 - To letter one 1/2 pint, 1/4 pint, or 6 or 7 oz. milk mold, or 8 oz. Cheese Jar.

Existing private molds which customer may have with another manufacturer will be duplicated free of charge on orders of not less than 40 gross of one size to be taken out in one shipment. Where three molds are to be duplicated, order must be for not less than a carload and should be taken out in not more than two deliveries. Sample of bottle customer is using must be submitted to our factory for duplication.

LETTERING PLATE POLICY:

Side Plates - We will furnish side lettering plates free to the extent of one plate for each 5 gross ordered. A charge of $2.50 per plate will be made on orders requiring a new plate for less quantity on the initial order. Separate plates are required for each size bottle.

Bottom Plates - Bottom lettering plates with one block letter or stock design, such as star, cross, etc., will be furnished free; when lettered with more than one letter or with small designs, a charge of $2.50 per plate will be made, applying on initial order only.

Duplicating Existing Plates - Lettering plates, either side or bottom or both, which customer may have with another manufacturer will be duplicated free of charge. No minimum required for the initial order. Where possible either sample or rubbing should be submitted to the factory.

GENERAL INFORMATION

FINISH STANDARDIZATION:

In the interests of standardization, no present user of the regular #2 cap size bottle may be changed to an odd size common sense finish OTHER than the 51 mm size; however present users of odd cap sizes may be changed to the standard #2. We will not manufacture bottles of other than standard dimensions as set forth under private mold standard specifications.

BOTTLE DESIGN STANDARDIZATION:

All milk bottles, orange juice bottles, sour cream and cottage cheese jars, may be supplied in styles and designs and with finishes and decorations in accordance with our Standard Weight milk bottle standardization program.

GENERAL INFORMATION (CONT'D)

PATENTED BOTTLES AND FINISHES:

Orders for patented bottles or finishes may only be taken subject to approval of our Toledo Office.

BULK SHIPMENTS:

Bottles may be shipped in bulk in either solid rail car or half car quantities consigned direct to the dairy for whom the bulk bottles are lettered. Other dairies or jobbers may secure crated bottles in cars containing bulk ware, but they will have to arrange to accept delivery at the plant of the dairy receiving the bulk bottles. Half pints or truck shipments not bulked.

COLLECTIVE OR COOPERATIVE BUYING:

Where a number of dairies using individually lettered bottles are owned by one company, that company is entitled to the price according to the quantity withdrawn by such subsidiary dairies providing withdrawals are made in accordance with regular price schedule. Such company must actually own and control the buying power of those dairies and substantiating evidence of ownership must be given. Bottles shipped subsidiaryd airies must be invoiced to the parent company. The pooling of purchases by users having no joint ownership is not recognized. Each user in such case is only entitled to the price according to the individual shipment.

QUALITY:

No seconds or mislettered bottles are sold. Prices shown are for first quality bottles only.

STIPPLED BOTTLES:

No extra charge for stippled bottles.

CRATES AND CULLET:

Crates and cullet may only be returned by dairies located in the city in which the factory is located.

PACIFIC COAST TERRITORY:

Quotations in Pacific Coast territory will be made from the Pacific Coast price list.

BASIS FOR RETAIL QUOTATIONS:

Less than 15,000 lb. shipments - This price applies to shipments of less than 15,000 lb. made either by truck or rail.

15,000 lb. shipment either by truck or pool car - This price applies to 15,000 lb. shipments withdrawn either by truck or pool car. Such shipments must apply against contract for one or more cars. Two or more sizes may be combined to obtain this price.

Solid car for rail shipments - This price applies to solid car rail shipments of minimum 30,000 lbs.

CONTRACTING POLICY:

Contracts should be taken from carload or larger buyers for the period of one year as an assurance for a source of supply and as authority for maintaining stocks if stocks are necessary for the proper servicing of the account. Such contracts shall provide for the dairy taking shipments in solid carload quantities for rail delivery, or lesser quantities either rail or truck delivery. The price will apply according to the quantity shipped and charges made for truck or store door delivery according to our schedules.

TRUCKING SERVICE AND POLICY ON MILK BOTTLES

Trucking service will be afforded where it is possible to provide such service based on conditions and charges as set forth below. Our obligation to render trucking service is conditioned upon our ability to secure it in the following States:

Delaware
Illinois
Indiana
Iowa
Kentucky
Maryland
Michigan, Southern Peninsula
(deliveries into Northern Peninsula must be made by rail)
Missouri
New Jersey
(excepting Jersey City, Newark, Elizabeth and Hoboken)
New York (except Metropolitan area)
North Carolina
Ohio
Pennsylvania
(excepting Philadelphia County)
South Carolina
Virginia
West Virginia
Wisconsin

SCHEDULE A - SOLID TRUCKLOAD SHIPMENTS OF MILK BOTTLES

Solid truckloads of 15,000# or 20,000 lbs. minimum for one dairy will be delivered to any destination in the above States, where it is possible to make arrangement for such service without extra charge to the customer.

SCHEDULE B - POOL TRUCKLOAD SHIPMENTS OF 5,000 lbs. OR MORE FOR DELIVERY TO ONE DESTINATION

In pool truckload shipments - 5,000 lb. quantities or more will be delivered to one destination at an additional charge to the customer for such deliveries of 8¢ per cwt.

SCHEDULE C - POOL TRUCKLOAD SHIPMENTS OF LESS THAN 5,000 LBS.

In pool truckloads shipments - less than 5,000# quantities will be delivered to destinations in the above States where pool truck service is available at an additional charge to the customer of 12¢ per cwt. Minimum charge of $3.00 per stop. Orders may be combined to take advantage of the minimum stop-over charge. We are anxious to eliminate delivery of small orders by truck and we should only be asked to give delivery on such small orders where it is impossible for the customer to order larger quantities of bottles.

LESS TRUCKLOAD SHIPMENT:

If customer requires small orders shipped by truck where or when pool truck service is not available the carload rate of freight only will be allowed the same as on less than carload rail shipments.

POOL-TRUCK DELIVERY

All orders for pool truck delivery must be taken with the understanding on the customer's part that delivery cannot be made until sufficient orders have been accumulated to make required weight for pool truck shipment into that particular area. If, after placing orders, customers cannot wait until orders for pool truck weight have been accumulated, shipments may be made local freight with rail carload rate of freight only allowed.

TRUCK DELIVERY OUTSIDE FREE DELIVERY ZONE

On truck shipments made in above areas and which are outside the Free Delivery Zone, 7-C Freight Differentials are to be added to the base price of bottles the same as for rail shipment. Truckload rate of freight will be allowed.

OBLIGATION TO FURNISH TRUCKING SERVICE

It should be explained to our milk bottle customers that our obligation to make truck delivery under this set-up is conditional on our ability to secure trucking service to the various destinations included in this set-up. In some localities, trucking service will be available on all three classes of business shown under Schedule A, B, and C. In other localities we can only offer trucking service on solid truckload quantities to one destination. In some areas jobbers can arrange for trucking service which we ourselves might be unable to render. There is no obligation on the part of our company to give trucking service to points included in this set-up where we are unable to make satisfactory trucking arrangements. For the present, we expect to be able to maintain trucking service to those destinations which we are now servicing.

OWENS-ILLINOIS GLASS COMPANY
TOLEDO, OHIO

DAIRY CONTAINER DIVISION

APRIL 4, 1938

15909

8162

TRUCKING CHARGES
Trucking charges on direct truck shipments will be prepaid by our company. In the case of direct shipments under Schedule B and Schedule C, the additional charges will be added to the invoice as a separate charge. Shipments handled by jobbers' own trucks will not be prepaid; carload rate of freight only will be allowed on the face of such invoices.

DAIRIES DOING OWN TRUCKING
Dairies who call at the factory for bottles or arrange for their own trucking, will be allowed the railroad carload rate of freight from factory to destination on such truck shipments.

JOBBERS DOING OWN TRUCKING
Jobbers doing their own trucking or who arrange for the trucking of bottles on their orders will be allowed the carload rate of freight from factory to destination. Jobbers who do their own trucking are to charge the differentials set up in this trucking schedule for the quantities delivered. Jobbers are to observe all other conditions involved in this trucking set-up. The additional charge for bottles delivered under Schedule B and Schedule C will be invoiced the customer or jobber if trucking is prepaid by our company. If the jobber delivers or arranges for the truck delivery of the bottles the jobber is to charge for the trucking service in accordance with this set-up.

TAIL-BOARD DELIVERY
Bottles delivered by truck are for tail-board delivery only at the customer's plant; there will be no special placing of bottles in the plant or on customer's premises.

UNLOADING HELP
Customer is required to furnish necessary help to unload bottles at destination.

INTERMEDIATE DELIVERY
All deliveries, including intermediate stops, must be on regular improved highways and on direct route to final destinations.

C.O.D. SHIPMENTS
No C.O.D. shipments will be handled by truck. All C.O.D.'s must be shipped by rail or by jobbers own truck.

CRATES AND CULLET
Crates and cullet will not be accepted for the return to the factory excepting from dairies in cities in which milk bottle factories are located.

CRATED WARE ONLY
Trucking service will be given on crated ware only. No bulk or uncrated ware will be handled in truck movement.

LOADING SERVICE
Trucks will be loaded at factories only during the actual day working hours.

REVISION OF SERVICE
Cancellation right is reserved to cancel or modify this trucking arrangement at any time circumstances may require such action.

LOCAL TRUCK DELIVERY BY JOBBERS FROM POOL CARS
Where truck delivery cannot be made from factory by truck to destination and jobber is required to make local truck delivery from pool cars, a charge of 20¢ per gross on the quart size, 15¢ per gross on the pint size, and 10¢ per gross on the half-pint size will be assessed the customer for such service.

Pool cars may also be consigned to a distributing warehouse and truck delivery made from the warehouse to the customer under the foregoing conditions.

Quarts - 30¢ per gross Pints - 20¢ per gross 1/2 Pints - 15¢ per gross

LESS THAN 15,000 LB. PRICE, EITHER RAIL OR TRUCK SHIPMENT: This price should be considered the minimum for such quantities ordered for shipment at one time. We recommend the jobber add an additional 25¢ per gross on all sizes for small deliveries of less than 10 gross quantities to cover additional cost on handling such small orders.

BULK SHIPMENTS: Bottles may be shipped in bulk in either solid rail car or half car quantities consigned direct to the dairy for whom the bulk bottles are lettered. Half pints and truck shipments not bulked. Allowance for bulk shipments: Quarts - 65¢ per gross; Pints - 35¢ per gross. Below crated list.

CONDITIONS OF SALE: Quotations are F.O.B. factory with the actual carload rate of freight allowed to any point within the Free Delivery Territory on either carload or LCL or LTL shipments. To points outside the Free Delivery Territory, add to list prices the freight charges per gross as shown in Freight Book #7-C, and allow full freight, either CL or LCL to destination.

FREE DELIVERY TERRITORY FOR MILK BOTTLES: The Free Delivery Territory commences at St. Louis, Mo., then follows the Mississippi River north to LaCrosse, Wisc., then follows a straight line from LaCrosse drawn eastward to Milwaukee, Wisc., then follows the center of the Great Lakes South of the Northern Peninsula of Michigan, then follows the northern border of the boundary line of the United States to the Atlantic Coast, then south along the Atlantic Coast to Norfolk, Va. Then draw a line westward through Richmond and Roanoke, Va., to the southern border of West Virginia, follow West Virginia state line northwest to the Ohio River through Cincinnati, Ohio, Covington and Louisville, Ky. to Cairo, Ill., then follow the Mississippi River north to St. Louis, Mo. the point of beginning.

TERMS: Net 30 days from date of shipment, 2% discount allowed for payment within 10 days.

BOTTLE WEIGHTS PER GROSS

RETAIL PRICE LIST
APPLIED COLOR LETTERING DIFFERENTIALS

For Milk Bottles up to and including quart size, Orange Juice bottles, Sour Cream and Cottage Cheese Jars, lettered with ACL, additional prices to be added to corresponding gross price milk bottle list:

ONE COLOR - ONE APPLICATION - BODY OR SHOULDER	Quart	Pint	½ Pint
Carload or 15,000 pound shipment	1.65	1.55	1.50
Ten gross to 15,000 pound shipment	2.30	2.20	2.15
Five to nine gross - any size	3.25	3.25	3.25

This classification covers one color designs placed on one or both body sides OR on one or both shoulders of the bottle. The designs opposite each other may either be the same or different, but both designs must be the same color.

TWO COLOR COMPINATION - ONE DESIGN - OR SUPERIMPOSED	Quart	Pint	½ Pint
Carload or 15,000 pound shipment	2.25	2.15	2.10
Ten gross to 15,000 pound shipment	3.05	2.95	2.90
Five to nine gross - any size	4.50	4.50	4.50

This classification applies where two colors are registered in the same design. If a close registration is required, such two color combination designs may be placed only on one side of the bottle. The design on the opposite side, if one is desired, must be one of the two colors used in the combination design. If two color combination designs are required on both sides of the bottle, the same colors must be used in both designs and should be in straight lines not requiring close registration.

BODY AND SHOULDER - ONE OR TWO COLORS	Quart	Pint	½ Pint
Carload or 15,000 pound shipment	2.15	2.05	2.00
Ten gross to 15,000 pound shipment	2.90	2.80	2.75
Five to nine gross - any size	3.90	3.90	3.90

This classification covers designs placed on one or both body sides and one or both shoulders. Design on shoulder may be a different color than design on body; however, the same color must be used on both sides of body, and both sides of shoulder must have same color. This classification also applies when ACL design is placed on cream top bulb in addition to body decoration. It also applies when ACL neck decoration (placed on quart size only) is used in conjunction with a body or a shoulder design.

MINIMUM WITHDRAWAL REQUIREMENTS: In all brackets except "Five to nine Gross" customer is required to take a minimum of 10 gross per size in order to receive the advantage of that particular bracket.

Carload or 15,000 lb. shipment lettered for one dairy - Carload or 15,000 pound quantity prices shall be allowed on solid rail carload shipments of ACL bottles, or on 15,000 lb. shipments made at one time by truck or pool car against a contract for one or more cars. Customer shall be entitled to four screens free of charge on carload order. If solid car is for one size, four different designs may be specified for that size only. If car consists of assorted sizes, total number of screens for all sizes shall not exceed four.

ORANGE JUICE BOTTLES: Regular pint milk bottle list for ACL differential on half-pint capacity orange juice bottles made at pint weight of glass. Stock emblem or wording only may be furnished on Bireley, Green Spot or Mission Dry bottles at carload ACL differential - minimum order five gross. If dairy name is used in conjunction with Green Spot or Mission emblem the ACL differential shall be according to quantity shipped. (Bireley's do not permit dairies' names to be shown in ACL.)

Two Gallon and Ten Quart Jug prices are f.o.b. factory with no freight allowed, except in straight or pool cars to points in free delivery zone.

STATE PERMITS FOR ONE GALLON, TWO GALLON, AND TEN QUART CONTAINERS:

The following states do not permit the use of one and two gallon containers:

Arizona	Louisiana	New York
Colorado	Maryland	North Carolina
Delaware	Massachusetts	West Virginia
Idaho	Minnesota	Wisconsin
Illinois	Mississippi	Wyoming
Kentucky	New Mexico	

While not legalized in the above states, the State Sealers in some cases permit their use. Before soliciting or accepting orders in the states above listed, clear this question with the sealing authorities.

Ten Quart containers should be cleared with sealing authorities in every state.

CREAMERS - packed in #1123 style reshipping cartons	Less than 100 Gross	100 to 499 Gross	500 gross or more

DAIRY CONTAINER PRICE LIST - O-I PERSONNEL

CONTRACT POLICY: Prices to dairies using less than 3,000 gross per year are based on quantities shipped at one time.

Dairies using 3,000 gross or more per year must sign a firm contract for the quantities of bottles they are in a position to contract for and expect to have us ship them. They must show their good faith by taking the quantity of bottles contracted for in order to secure the advantage of such contract price the following year.

Terms and Conditions of sale as shown in Retail Price List apply to dairies contracting for 3,000 gross or more. Dairies contracting for 3,000 gross or more should take shipments in either solid, carload or solid truckload quantities.

PRICES FOR ACL AND MISCELLANEOUS ITEMS FOR DAIRIES CONTRACTING FOR 15,000 GROSS OR MORE

MISCELLANEOUS ITEMS

Miscellaneous items sold to 3,000 to 15,000 gross buyers should be priced from regular retail list. Prices on miscellaneous items to dairies contracting for 15,000 gross or more are as follows:

DAIRY CONTAINER PRIVATE MOLD AND LETTERING PLATE INFORMATION

GENERAL:

Where special or intricate designs, monograms, or trademarks are wanted on either private molds, side or bottom plates, contact the Dairy Container Division as it is frequently necessary to charge extra for this special work.

The charges listed below apply only for lettering. The molds or plates remain the property of the Owens-Illinois Glass Company.

PRIVATE MOLD POLICY:

We will furnish new quart, pint and half pint private molds free to the extent of one mold for each car ordered or contracted to be withdrawn within one year, either solid car of one size or mixed car of various sizes. The initial shipping order must be for not less than 35 gross for each mold so made. We will make half gallon mold free of charge on order for a solid carload of half gallons to be shipped at one time. If molds are furnished not in accordance with the above, they shall be charged for on the basis of the following schedule:

$35.00 - To letter one half gallon mold.
25.00 - To letter one quart mold.
20.00 - To letter one pint, 10 oz., 1/3 qt. milk mold, or 12 and 16 oz. cheese jar.
15.00 - To letter one 1/2 pint, 1/4 pint, or 6 or 7 oz. milk mold, or 8 oz. cheese jar.

The minimum run of private mold half gallons is 10 gross.

Existing private molds which customer may have with another manufacturer will be duplicated free of charge on orders of not less than 40 gross of one size to be taken out in one shipment. Where three molds are to be duplicated, order must be for not less than a carload and should be taken out in not more than two deliveries. Sample of bottle customer is using must be submitted to our factory for duplication.

LETTERING PLATE POLICY: (Half Gallons are not Plated)

Side Plates - We will furnish side lettering plates free to the extent of one plate for each 5 gross ordered. A charge of $2.50 per plate will be made on orders requiring a new plate for less quantity on the initial order. Separate plates are required for each size bottle.

Bottom Plates - Bottom lettering plates with one block letter or stock design, such as star, cross, etc., will be furnished free; when lettered with more than one letter or with small designs, a charge of $2.50 per plate will be made, applying on initial order only.

Duplicating Existing Plates - Lettering plates, either side or bottom or both, which customer may have with another manufacturer will be duplicated free of charge. No minimum required for the initial order. Where possible either sample or rubbing should be submitted to the factory.

GENERAL INFORMATION

FINISH STANDARDIZATION:

In the interests of standardization, bottle finishes should be limited to outside diameters of 45 mm, 51 mm and 56 mm, and also 47 mm on Cream Tops. 54 mm can be furnished those dairies now using this size. Standard capseat sizes for these finishes are:

45 mm Dacro - no capseat
45 mm - 1-1/4" or without capseat
47 mm - not furnished with capseat
51 mm - #6 - 1-7/16" or without capseat on Cream Tops
54 mm - #4 - 1-1/2"
56 mm - #2 - 1-21/32"

If a dairy desires to change finish or capseat size, it should adopt one of the above standards for both outside finish diameter and inside capseat size.

BOTTLE DESIGN STANDARDIZATION:

All milk bottles, orange juice bottles, sour cream and cottage cheese jars may be supplied in styles and designs and with finishes and decorations in accordance with our Standard Weight milk bottle standardization program.

GENERAL INFORMATION (CONT'D.)

PATENTED BOTTLES AND FINISHES:

Orders for patented bottles or finishes may only be taken subject to approval of our Toledo Office.

BULK SHIPMENTS:

Bottles may be shipped in bulk in either solid rail car or half car quantities consigned direct to the dairy for whom the bulk bottles are lettered. Other dairies or jobbers may secure crated or carton packed bottles in cars containing bulk ware, but they will have to arrange to accept delivery at the plant of the dairy receiving the bulk bottles. Half pints or truck shipments not bulked.

COLLECTIVE OR COOPERATIVE BUYING:

Where a number of dairies using individually lettered bottles are owned by one company, that company is entitled to the price according to the quantity withdrawn by such subsidiary dairies providing withdrawals are made in accordance with regular price schedule. Such company must actually own and control the buying power of those dairies and substantiating evidence of ownership must be given. Bottles shipped subsidiary dairies must be invoiced to the parent company. The pooling of purchases by users having no joint ownership is not recognized. Each user in such case is only entitled to the price according to the individual shipment.

QUALITY:

No seconds or mislettered bottles are sold. Prices shown are for first quality bottles only.

STIPPLED BOTTLES:

No extra charge for stippled bottles.

CRATES AND CULLET:

Crates and cullet may only be returned by dairies located in the city in which the factory is located.

PACIFIC COAST TERRITORY:

Quotations in Pacific Coast territory will be made from the Pacific Coast price list.

CONTRACTING POLICY:

Contracts should be taken from carload or larger buyers for the period of one year as an assurance for a source of supply and as authority for maintaining stocks if stocks are necessary for the proper servicing of the account. Such contracts shall provide for the dairy taking shipments in solid carload quantities for rail delivery, or lesser quantities either rail or truck delivery. The price will apply according to the quantity shipped and charges made for truck or store door delivery according to our schedules.

TRUCKING SERVICE AND POLICY ON MILK BOTTLES

Trucking service will be afforded where it is possible to provide such service based on conditions and charges as set forth below. Our obligation to render trucking service is conditioned upon our ability to secure it in the following States:

Delaware
Illinois
Indiana
Iowa
Kentucky
Maryland
Michigan, Southern Peninsula
(deliveries into Northern Peninsula must be made by rail)
Missouri
New Jersey
(excepting Jersey City, Newark, Elizabeth and Hoboken)
New York (except Metropolitan area)
North Carolina
Ohio
Pennsylvania
(excepting Philadelphia County)
South Carolina
Virginia
West Virginia
Wisconsin

SCHEDULE A - SOLID TRUCKLOAD SHIPMENTS OF MILK BOTTLES
Solid truckloads of 15,000# or 20,000 lbs. minimum for one dairy will be delivered to any destination in the above States, where it is possible to make arrangement for such service without extra charge to the customer.

SCHEDULE B - POOL TRUCKLOAD SHIPMENTS OF 5,000 lbs. OR MORE FOR DELIVERY TO ONE DESTINATION
In pool truckload shipments - 5,000 lb. quantities or more will be delivered to one destination at an additional charge to the customer for such deliveries of 8¢ per cwt.

SCHEDULE C - POOL TRUCKLOAD SHIPMENTS OF LESS THAN 5,000 LBS.
In pool truckloads shipments - less than 5,000# quantities will be delivered to destinations in the above States where pool truck service is available at an additional charge to the customer of 12¢ per cwt. Minimum charge of $3.00 per stop. Orders may be combined to take advantage of the minimum stop-over charge. We are anxious to eliminate delivery of small orders by truck and we should only be asked to give delivery on such small orders where it is impossible for the customer to order larger quantities of bottles.

LESS TRUCKLOAD SHIPMENT:
If customer requires small orders shipped by truck where or when pool truck service is not available the carload rate of freight only will be allowed the same as on less than carload rail shipments.

POOL-TRUCK DELIVERY
All orders for pool truck delivery must be taken with the understanding on the customer's part that delivery cannot be made until sufficient orders have been accumulated to make required weight for pool truck shipment into that particular area. If, after placing orders, customers cannot wait until orders for pool truck weight have been accumulated, shipments may be made local freight with rail carload rate of freight only allowed.

TRUCK DELIVERY OUTSIDE FREE DELIVERY ZONE
On truck shipments made in above areas and which are outside the Free Delivery Zone, 7-C Freight Differentials are to be added to the base price of bottles the same as for rail shipment. Truckload rate of freight will be allowed.

OBLIGATION TO FURNISH TRUCKING SERVICE
It should be explained to our milk bottle customers that our obligation to make truck delivery under this set-up is conditional on our ability to secure trucking service to the various destinations included in this set-up. In some localities, trucking service will be available on all three classes of business shown under Schedule A, B, and C. In other localities we can only offer trucking service on solid truckload quantities to one destination. In some areas jobbers can arrange for trucking service which we ourselves might be unable to render. There is no obligation on the part of our company to give trucking service to points included in this set-up where we are unable to make satisfactory trucking arrangements. For the present, we expect to be able to maintain trucking service to those destinations which we are now servicing.

TRUCKING CHARGES
Trucking charges on direct truck shipments will be prepaid by our company. In the case of direct shipments under Schedule B and Schedule C, the additional charges will be added to the invoice as a separate charge. Shipments handled by jobbers' own trucks will not be prepaid; carload rate of freight only will be allowed on the face of such invoices.

DAIRIES DOING OWN TRUCKING
Dairies who call at the factory for bottles or arrange for their own trucking, will be allowed the railroad carload rate of freight from factory to destination on such truck shipments.

JOBBERS DOING OWN TRUCKING
Jobbers doing their own trucking or who arrange for the trucking of bottles on their orders will be allowed the carload rate of freight from factory to destination. Jobbers who do their own trucking are to charge the differentials set up in this trucking schedule for the quantities delivered. Jobbers are to observe all other conditions involved in this trucking set-up. The additional charge for bottles delivered under Schedule B and Schedule C will be invoiced the customer or jobber if trucking is prepaid by our company. If the jobber delivers or arranges for the truck delivery of the bottles the jobber is to charge for the trucking service in accordance with this set-up.

TAIL-BOARD DELIVERY
Bottles delivered by truck are for tail-board delivery only at the customer's plant; there will be no special placing of bottles in the plant or on customer's premises.

UNLOADING HELP
Customer is required to furnish necessary help to unload bottles at destination.

INTERMEDIATE DELIVERY
All deliveries, including intermediate stops, must be on regular improved highways and on direct route to final destinations.

C.O.D. SHIPMENTS
No C.O.D. shipments will be handled by truck. All C.O.D.'s must be shipped by rail or by jobbers own truck.

CRATES AND CULLET
Crates and cullet will not be accepted for the return to the factory excepting from dairies in cities in which milk bottle factories are located.

CARTON PACKED OR CRATED WARE ONLY
Trucking service will be given on carton packed or crated ware only. No bulk ware will be handled in truck movement.

LOADING SERVICE
Trucks will be loaded at factories only during the actual day working hours.

REVISION OF SERVICE
Cancellation right is reserved to cancel or modify this trucking arrangement at any time circumstances may require such action.

LOCAL TRUCK DELIVERY BY JOBBERS FROM POOL CARS
Where truck delivery cannot be made from factory by truck to destination and jobber is required to make local truck delivery from pool cars, a charge of 20¢ per gross on the quart size, 15¢ per gross on the pint size, and 10¢ per gross on the half-pint size will be assessed the customer for such service.

Pool cars may also be consigned to a distributing warehouse and truck delivery made from the warehouse to the customer under the foregoing conditions.

Note: 1/4 pt., 6 oz., 7 oz. capacity priced same as half-pints. 10 oz., 12 oz., and 1/3 qt. capacity priced same as pints.

Orange juice bottles: 1/2 pint capacity orange juice bottles made at pint weight of glass carry pint price.

Prices above cover bottles made of the Standard Weight of Glass:
Quarts - 22 oz. Pints - 13 oz. Half-pints - 8 oz.

If bottles are desired made at the old Heavy Weight of Glass, that is:
Quarts - 25-1/2 oz. Pints - 15-1/2 oz. Half-pints - 10 oz.

Add the following differentials:
Quarts - 30¢ per gross. Pints - 20¢ per gross Half-pints - 15¢ per gross

LESS THAN 15,000 LB. PRICE, EITHER RAIL OR TRUCK SHIPMENT: This price should be considered the minimum for such quantities ordered for shipment at one time. We recommend the jobber add an additional 25¢ per gross on all sizes for small deliveries of less than 10 gross quantities to cover additional cost on handling such small orders.

BULK SHIPMENTS: Bottles may be shipped in bulk in either solid rail car or half car quantities consigned direct to the dairy for whom the bulk bottles are lettered. Half-pints and truck shipments not bulked. Allowance for bulk shipments:
Deduct from crated list: Quarts - 65¢ per gross. - Pints - 35¢ per gross.
or Deduct from carton list: Quarts - 45¢ per gross .- Pints - 25¢ per gross.

CONDITIONS OF SALE: Quotations are F.O.B. factory with the actual carload rate of freight allowed to any point within the Free Delivery Territory on either carload or LCL or LTL shipments. To points outside the Free Delivery Territory, add to list prices the freight charges per gross as shown in Freight Book #7-C, and allow full freight, either CL or LCL to destination.

FREE DELIVERY TERRITORY FOR MILK BOTTLES: The Free Delivery Territory commences at St. Louis, Mo., then follows the Mississippi River north to LaCrosse, Wisc., then follows a straight line from LaCrosse drawn eastward to Milwaukee, Wisc., then follows the center of the Great Lakes South of the Northern Peninsula of Michigan, then follows the northern border of the boundary line of the United States to the Atlantic Coast, then south along the Atlantic Coast to Norfolk, Va. Then draw a line westward through Richmond and Roanoke, Va., to the southern border of West Virginia, follow West Virginia state line northwest to the Ohio River through Cincinnati, Ohio, Covington and Louisville, Ky. to Cairo, Ill., then follow the Mississippi River north to St. Louis, Mo. the point of beginning.

TERMS: Net 30 days from date of shipment, 2% discount allowed for payment within 10 days.

RETAIL PRICE LIST
APPLIED COLOR LETTERING DIFFERENTIALS

For Milk Bottles up to and including quart size, Orange Juice Bottles, Sour Cream and Cottage Cheese Jars, lettered with ACL, additional prices to be added to corresponding gross price milk bottle list:

ONE COLOR - ONE APPLICATION - BODY OR SHOULDER	Quart	Pint	½ Pint
Carload or 15,000 pound shipment	1.65	1.55	1.50
Ten gross to 15,000 pound shipment	2.30	2.20	2.15
Five to nine gross - any size	3.25	3.25	3.25

This classification covers one color designs placed on one or both body sides OR on one or both shoulders of the bottle. The designs opposite each other may either be the same or different, but both designs must be the same color.

TWO COLOR COMBINATION - ONE DESIGN - OR SUPERIMPOSED	Quart	Pint	½ Pint
Carload or 15,000 pound shipment	2.25	2.15	2.10
Ten gross to 15,000 pound shipment	3.05	2.95	2.90
Five to nine gross - any size	4.50	4.50	4.50

This classification applies where two colors are registered in the same design. If a close registration is required, such two color combination designs may be placed only on one body side or one shoulder of the bottle. The design on the opposite side, if one is desired, must be one of the two colors used in the combination design. If two color combination designs are required on both sides of the bottle, the same colors must be used in both designs and should be in straight lines not requiring close registration.

BODY AND SHOULDER - ONE OR TWO COLORS	Quart	Pint	½ Pint
Carload or 15,000 pound shipment	2.15	2.05	2.00
Ten gross to 15,000 pound shipment	2.90	2.80	2.75
Five to nine gross - any size	3.90	3.90	3.90

This classification covers designs placed on one or both body sides and one or both shoulders. Design on shoulder may be a different color than design on body; however, the same color must be used on both sides of body, and both sides of shoulder must have same color. This classification also applies when ACL design is placed on cream top bulb in addition to body decoration. It also applies when ACL neck decoration (placed on quart size only) is used in conjunction with a body or a shoulder design.

MINIMUM WITHDRAWAL REQUIREMENTS: In all brackets except "Five to nine Gross" customer is required to take a minimum of 10 gross per size in order to receive the advantage of that particular bracket.

Carload or 15,000 lb. shipment lettered for one dairy - Carload or 15,000 pound quantity prices shall be allowed on solid rail carload shipments of ACL bottles, or on 15,000 lb. shipments made at one time by truck or pool car. Customer shall be entitled to four screens free of charge on carload order. If solid car is for one size, four different designs may be specified for that size only. If car consists of assorted sizes, total number of screens for all sizes shall not exceed four.

ORANGE JUICE BOTTLES: Regular pint milk bottle list for ACL differential on half-pint capacity orange juice bottles made at pint weight of glass. Stock emblem or wording only may be furnished on Bireley, Green Spot or Mission Dry bottles at carload ACL differential - minimum order five gross. If dairy name is used in conjunction with Green Spot or Mission emblem the ACL differential shall be according to quantity shipped. (Bireley's do not permit dairies' names to be shown in ACL.)

JOBBER LIST - ALL STATES

	SMALL		MEDIUM		LARGE - 350 gross and over			
	Less than 150 gros.		150 to 350 Gross		Solid car rail shpt. lettered for one dairy Or solid car plain ware		All other shipments	
Capacity	Cartons	Crates	Cartons	Crates	Cartons	Crates	Cartons	Crates
Quart	$6.70	$6.90	$6.15	$6.35	$5.75	$5.95	$5.90	$6.10
Pint	5.00	5.10	4.45	4.55	4.10	4.20	4.20	4.30
Half-pint	4.05	4.15	3.50	3.60	3.15	3.25	3.25	3.35

Jobber classifications are based on annual purchases.

NOTE: 1/4 pt., 6 oz , 7 oz. capacity priced same as half-pints.
8 oz., 12 oz., and 1/3 qt. capacity priced same as pints.
Orange juice bottles: 1/2 pint capacity orange juice bottles made at pint weight of glass carry pint price.

Prices above cover bottles made of the Standard Weight of Glass:
Quarts - 22 oz. Pints - 13 oz. Half-pints - 8 oz.
If bottles are desired made at the old Heavy Weight of Glass, that is:
Quarts - 25-1/2 oz. Pints - 15-1/2 oz. Half-pints - 10 oz.
Add the following differentials:
Quarts - 30¢ per gross Pints - 20¢ per gross Half-pints - 15¢ per gross

LESS THAN 15,000 LB. PRICE, EITHER RAIL OR TRUCK SHIPMENT: This price should be considered the minimum for such quantities ordered for shipment at one time. We recommend jobbers handle the orders in this classification wherever possible. If quoting direct quote whatever is the prevailing market price over this. All less than ten gross orders should be handled through jobbers and they should add at least an additional 25¢ per gross on all sizes for such small deliveries.

BULK SHIPMENTS: Bottles may be shipped in bulk in either solid rail car or half car quantities consigned direct to the dairy for whom the bulk bottles are lettered. Half-pints and truck shipments not bulked. Allowance for bulk shipments:
Deduct from crated list: Quarts - 65¢ per gross - Pints - 35¢ per gross.
OR Deduct from carton list: Quarts - 45¢ per gross - Pints - 25¢ per gross.

[fol. 15928] GOVERNMENT EXHIBIT No. 1596

IN UNITED STATES DISTRICT COURT

[Title omitted]

STIPULATION

It is hereby agreed by and between the parties hereto, by their respective counsel, that on the trial of this case it will be stipulated as follows:

1. For the purpose of these proceedings only, the papers attached to this stipulation, constituting

(1) A group of eleven (11) documents consisting of the consolidated balance sheets of Owens-Illinois Glass Company and subsidiaries for each of the calendar years from 1929 to 1939, inclusive; and

(2) A group of eleven (11) documents consisting of the consolidated statement of income and expense of Owens-Illinois Glass Company and subsidiaries for each of the calendar years from 1929 to 1939, inclusive,

if offered in evidence during the trial of this case, shall have the same force and effect as though offered through the testimony of competent witnesses, but nothing herein shall prevent the defendant Owens-Illinois Glass Company from introducing additional evidence in explanation of, or supplementing, such papers or any of them, or any matters therein referred to.

2. It is expressly understood and agreed that each of the parties hereto reserves the right, in the event that either of [fol. 15929] said documents is offered in evidence to object to the use or admission thereof on any ground whatsoever other than the ground covered by Paragraph 1 of this stipulation.

3. Neither of the parties hereto, by entering into this stipulation, shall be deemed to have made any admission of any fact or facts for the purposes of any other or different suit or proceeding to which either or both of the parties hereto may be parties, regardless of whether such suit or

proceeding is between the parties hereto or between either or both of the parties hereto and any other person or persons.

E. B. Freed, Samuel S. Isseks, Counsel for Plaintiff, United States of America.

Lloyd T. Williams, Henry A. Middleton, Counsel for Defendant, Owens-Illinois Glass Company.

Dated Sept. 10, 1940.

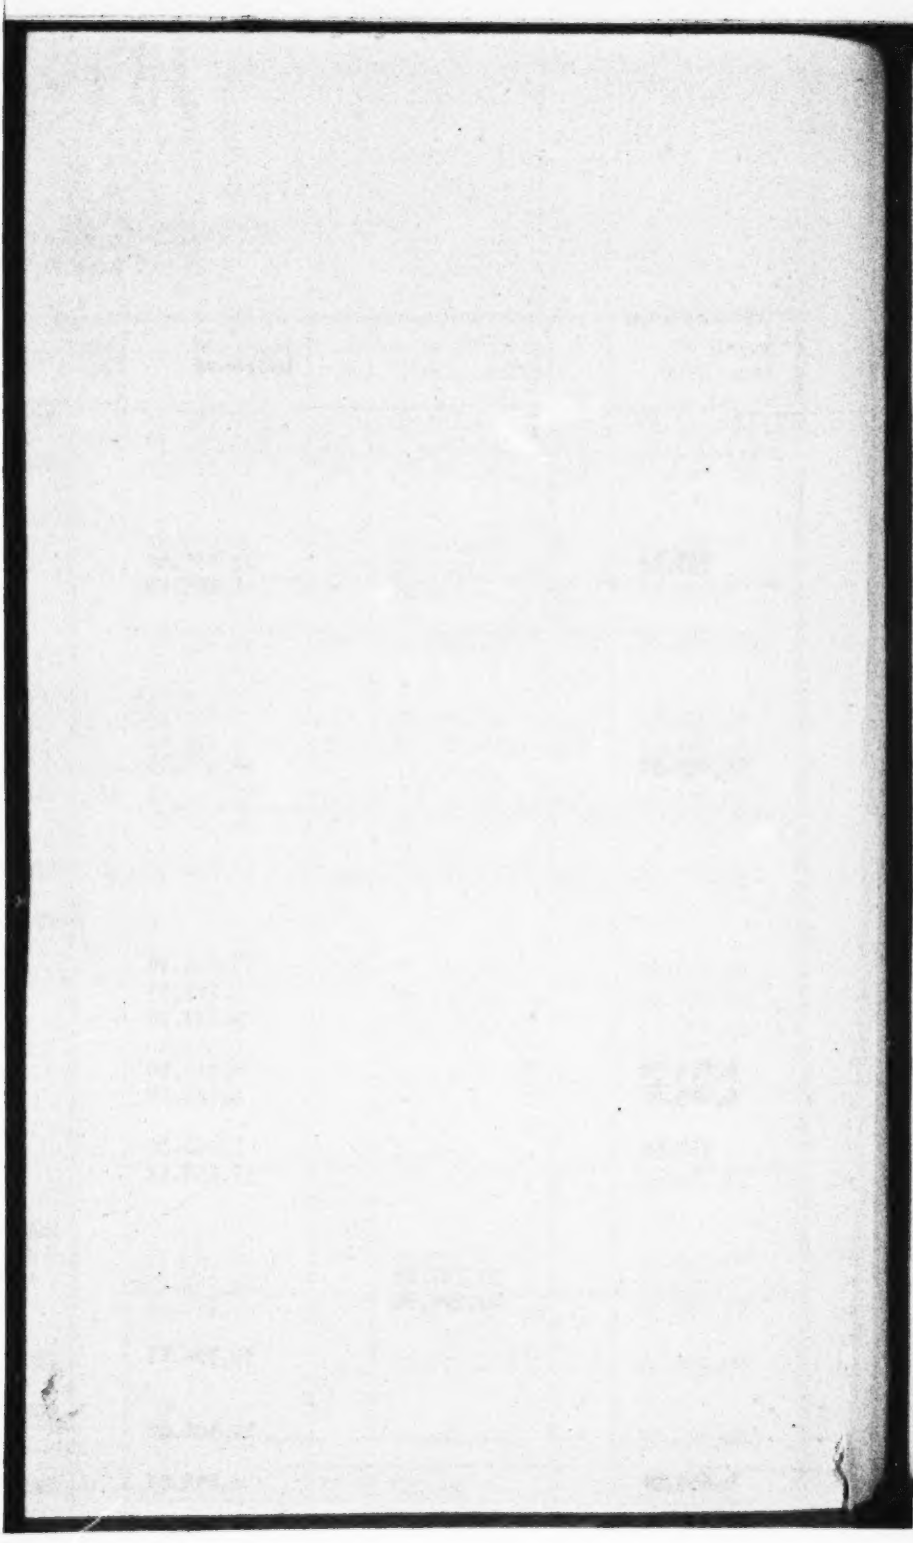
I CERTIFY THAT THE [illegible] OF THE [illegible]



[fol. 15952] GOVERNMENT EXHIBIT No. 1597

IN UNITED STATES DISTRICT COURT

[Title omitted]

STIPULATION

It is hereby agreed by and between the parties hereto, by their respective counsel, that on the trial of this case it will be stipulated as follows:

1. For the purposes of these proceedings only, the papers attached to this stipulation, constituting lists of patents and interferences as follows:

(1) List of patents owned by Owens-Illinois Glass Company on or prior to December 31, 1939, showing the number of each patent, the name of the patentee, the date of issue, and the date acquired;

(2) List of patents owned by the Libbey Glass Company, subsidiary of Owens-Illinois Glass Company, showing the number of each patent, the name of the patentee, the date of issue, the date acquired by Owens-Illinois Glass Company, and the date of transfer thereof to the Libbey Glass Company;

(3) List of interferences in the Patent Office involving patent applications or patents in which Owens-Illinois Glass Company or predecessor companies were interested, including all such interferences since 1916,

if offered in evidence during the trial of this case, shall have the same force and effect as though offered through the testimony of competent witneses, but nothing herein shall prevent the defendant Owens-Illinois Glass Company from introducing additional evidence in explanation of, or sup- [fol. 15953] plementing, such documents or any of them, or any matters therein referred to.

2. It is expressly understood and agreed that each of the parties hereto reserves the right, in the event that any of said documents, or any part thereof, is offered in evidence, to object to the use or admission thereof on any ground whatsoever other than the ground covered by Paragraph 1 of this stipulation.

3. Neither of the parties hereto, by entering into this stipulation, shall be deemed to have made any admission of any fact or facts for the purposes of any other or different suit or proceeding to which either or both of the parties hereto may be parties, regardless of whether such suit or proceeding is between the parties hereto or between either or both of the parties hereto and any other person or persons.

E. B. Freed, Samuel S. Isseks, Counsel for Plaintiff, United States of America.

—— ——, —— ——, Counsel for Defendant, Owens-Illinois Glass Company.

Dated —— —, 1940.

IN UNITED STATES DISTRICT COURT

[Title omitted]

STIPULATION

It is hereby agreed by and between the parties hereto, by their respective counsel, that on the trial of this case it will be stipulated as follows:

1. For the purpose of these proceedings only, the documents attached to this stipulation, constituting

Eleven price lists of Owens-Illinois Glass Company or its predecessor, The Owens Bottle Company, effective February 1, 1922, October 2, 1922, October 8, 1923, November 15, 1924, January 25, 1926, October 19, 1926, January 5, 1928, October 25, 1928, June 1, 1930, April 1, 1931, and January 16, 1933, respectively, for Narrow Mouth Condiment and Fruit Juice Bottles,

if offered in evidence during the trial of this case, shall have the same force and effect as though offered through the testimony of competent witnesses, but nothing herein shall prevent the defendant Owens-Illinois Glass Company from introducing additional evidence in explanation of, or supplementing, such documents or any of them, or any matters therein referred to.

2. It is expressly understood and agreed that each of the parties hereto reserves the right, in the event that any one or more of said lists are offered in evidence, to object to the use or admission thereof on any ground whatso- [fol. 15991] ever other than on the ground set forth in Paragraph 1 of this stipulation.

3. Neither of the parties, by entering into this stipulation, shall be deemed to have made any admission of any fact or facts for the purposes of any other or different suit or proceeding to which either or both of the parties hereto may be parties, regardless of whether such suit or proceeding is between the parties hereto or between either

or both of the parties hereto and any other person or persons.

E. B. Freed, Samuel S. Isseks, Counsel for plaintiff, United States of America. Lloyd T. Williams, Henry A. Middleton, Counsel for Defendant Owens-Illinois Glass Company.

Dated Sept. 10, 1940.

The Owens Bottle Company

GENERAL OFFICES
TOLEDO, OHIO

Narrow Mouth Condiment and Fruit Juice Bottles

PRICE LIST

Effective February 1, 1922

Subject to change without notice

15992

Prices are f. o. b. our factories with present carload rate of freight allowed in Eastern and Western free delivery territory; buyer to pay all Federal Transportation Taxes. To points outside of free delivery territory, freight is to be equalized with one of the following points, whichever takes the lowest freight rate to destination: St. Louis, Mo., Chicago, Ill., Muscatine, Iowa, Louisville, Ky., Richmond, Va.

Terms: Thirty (30) days net, or less one (1) per cent for cash, after deducting freight allowance, if paid within ten (10) days from date of invoice.

Contracts for Grape Juice and Cider bottles require shipment of all bottles prior to September 1, 1922, and contracts for Catsup, Chili Sauce, Mayonnaise, Salad Dressing, Vinegar, etc., prior to December 31, 1922.

Definite specifications for quantity covered by contract shall be required at the time it is signed.

Classification: To find the proper price for any bottle, first ascertain the product that is to be packed therein, and use the prices listed herein applying on ware so described. Measure the liquid capacity to the filling point which is shown under each list. If the capacity is not shown in the list, take the price on the nearest larger capacity. When the weight exceeds the maximum weight specified, use price opposite the actual making weight. When intermediate use next higher list price. For bottles made at a lighter weight there must be no reduction made in list price.

Reshipping cases: Paper cases, unless otherwise specified, will be of standard quality regular slotted construction. Where gross weight of box and filled bottles does not exceed 40 lbs., 175 lb. Mullen test will be supplied. Where gross weight exceeds 40 lbs. but does not exceed 65 lbs., 200 lb. test will be used. If made of higher test stock, or in any other respect special, extra charge is to be made for the additional cost.

All wooden cases shall be made from yellow pine lumber, nailed construction. Ends 3/8 inches, with exception of 64 oz. which has 13/16 inch; all sides, tops and bottoms 3/8 inches; ends and sides 1 and 2 pieces, tops and bottoms 2 and 3 pieces.

Packing material for wooden cases consists of double face shoulder height partitions, single face shoulder height liners, single face top and bottom pads, with the exception of ½ Gallons, which have double face shoulder height partitions, double double shoulder height liners, double double top and bottom pads.

If cases are made of thicker lumber, or of more expensive material, or if special packing material is required, extra charge is to be made covering the additional cost.

No extra charge will be made for printing cases, but customer must furnish the necessary dies, or we will obtain them charging customer with the actual cost.

Where Buyer supplies corrugated paper or wooden cases for the packing of his bottles, the freight is to be prepaid to our factories and a charge of three and one-half (3½) cents per corrugated paper case and five (5) cents per wooden case is to be added to the bulk prices for handling and re-shipment. It is understood where wooden cases are supplied, they are to be nailed or lockcornered before shipment is made to us, but if shipped to us in shook form, an extra charge of five (5) cents per case for nailing will be made in addition to the five (5) cents per case for handling and re-shipment.

Basis for Figuring Quantity Prices:

The prices given apply on orders from 500 to 5000 Gross.
On orders from 5,000 to 25,000 Gross deduct 5c per gross
On orders from 25,000 to 50,000 Gross deduct 10c per gross
On orders from 50,000 to 100,000 Gross deduct 15c per gross
On orders over 100,000 Gross deduct 20c per gross
On orders for carload and up to 500 Gross add 5c per gross
On less than carload orders add 5c per gross, and allow no freight

No allowance is to be made for the return of empty crates

Warranties: Bottles shall be of good merchantable quality, and the breakage in first washing, filling and sterilizing, done with reasonable care, shall not exceed two (2) per cent of all bottles delivered on contract. Buyer assumes liability for all breakage not in excess of two per cent (2%). Seller shall not be liable for more than the contract price of such bottles broken, defective or short and does not assume any responsibility for loss of contents, or any other loss whatsoever.

PRICE LIST

Effective October 2, 1922

Subject to change without notice

16004

Prices are f. o. b. our factories with present carload rate of freight allowed in Eastern and Western free delivery territory; buyer to pay all Federal Transportation Taxes. To points outside of free delivery territory, freight is to be equalized with one of the following points, whichever takes the lowest freight rate to destination: St. Louis, Mo., Chicago, Ill., Muscatine, Iowa, Louisville, Ky., Richmond, Va.

Terms: Thirty (30) days net, or less one (1) per cent for cash, after deducting freight allowance, if paid within ten (10) days from date of invoice.

Contracts for Grape Juice and Cider bottles require shipment of all bottles prior to September 1, 1923, and contracts for Catsup, Chili Sauce, Mayonnaise, Salad Dressing, Vinegar, etc., prior to December 31, 1923.

Definite specifications for quantity covered by contract shall be required at the time it is signed.

Classification: To find the proper price for any bottle, first ascertain the product that is to be packed therein, and use the prices listed herein applying on ware so described. Measure the liquid capacity to the filling point which is shown under each list. If the capacity is not shown in the list, take the price on the nearest larger capacity. When the weight exceeds the maximum weight specified, use price opposite the actual making weight. When intermediate use next higher list price. For bottles made at a lighter weight there must be no reduction made in list price.

Reshipping cases: Paper cases, unless otherwise specified, will be of standard quality regular slotted construction. Where gross weight of box and filled bottles does not exceed 40 lbs., 175 lb. Mullen test will be supplied. Where gross weight exceeds 40 lbs., but does not exceed 65 lbs., 200 lb. test will be used. If made of higher test stock, or in any other respect special, extra charge is to be made for the additional cost.

All wooden cases shall be made from yellow pine lumber, nailed construction. Ends ⅜ inches, with exception of 64 oz. which has 13/16 inch; all sides, tops and bottoms ⅜ inches; ends and sides 1 and 2 pieces, tops and bottoms 2 and 3 pieces.

Packing material for wooden cases consists of double face shoulder height partitions, single face shoulder height liners, single face top and bottom pads, with the exception of ½ Gallons, which have double face shoulder height partitions, double double shoulder height liners, double double top and bottom pads.

If cases are made of thicker lumber, or of more expensive material, or if special packing material is required, extra charge is to be made covering the additional cost.

No extra charge will be made for printing cases, but customer must furnish the necessary dies, or we will obtain them charging customer with the actual cost.

Where Buyer supplies corrugated paper or wooden cases for the packing of his bottles, the freight is to be prepaid to our factories and a charge of two (2) cents per corrugated paper case and three and one-half (3½) cents per wooden case is to be added to the bulk prices for handling and re-shipment. It is understood where wooden cases are supplied, they are to be nailed or lockcornered before shipment is made to us, but if shipped to us in shook form an extra charge of three and one-half (3½) cents per case for nailing will be made in addition to the three and one-half (3½) cents per case for handling and re-shipment.

Basis for Figuring Quantity Prices:

The prices given apply on orders from 500 to 5000 Gross.
On orders from 5,000 to 25,000 Gross deduct 5c per gross.
On orders from 25,000 to 50,000 Gross deduct 10c per gross.
On orders from 50,000 to 100,000 Gross deduct 15c per gross.
On orders over 100,000 Gross, deduct 20c per gross.
On orders for carload and up to 500 Gross, add 5c per gross.
On less than carload orders add 5c per gross, and allow no freight.

No allowance is to be made for the return of empty crates.

Warranties: Bottles shall be of good merchantable quality, and the breakage in first washing, filling and sterilizing, done with reasonable care, shall not exceed two (2) per cent of all bottles delivered on contract. Buyer assumes liability for all breakage not in excess of two per cent (2%). Seller shall not be liable for more than the contract price of such bottles broken, defective or short and does not assume any responsibility for loss of contents, or any other loss whatsoever.

The Owens Bottle Company

GENERAL OFFICES
TOLEDO, OHIO

Narrow Mouth Condiment and Fruit Juice Bottles

PRICE LIST

Effective October 8, 1923

Subject to change without notice

16016

Prices are f. o. b. our factories with present carload rate of freight allowed in Eastern and Western free delivery territory; buyer to pay all Federal Transportation Taxes. To points outside of free delivery territory, freight is to be equalized with one of the following points, whichever takes the lowest freight rate to destination: St. Louis, Mo., Chicago, Ill., Muscatine, Iowa, Louisville, Ky., Richmond, Va.

Terms: Thirty (30) days net, or less one (1) per cent for cash, after deducting freight allowance, if paid within ten (10) days from date of invoice.

Contracts for Grape Juice and Cider bottles require shipment of all bottles prior to September 1, 1924, and contracts for Catsup, Chili Sauce, Mayonnaise, Salad Dressing, Vinegar, etc., prior to December 31, 1924.

Definite specifications for quantity covered by contract shall be required at the time it is signed.

Classification: To find the proper price for any bottle, first ascertain the product that is to be packed therein, and use the prices listed herein applying on ware so described. Measure the liquid capacity to the filling point which is shown under each list. If the capacity is not shown in the list, take the price on the nearest larger capacity. When the weight exceeds the maximum weight specified, use price opposite the actual making weight. When intermediate use next higher list price. For bottles made at a lighter weight there must be no reduction made in list price.

Reshipping cases: Paper cases, unless otherwise specified, will be of standard quality regular slotted construction. Where gross weight of box and filled bottles does not exceed 40 lbs., 175 lb. Mullen test will be supplied. Where gross weight exceeds 40 lbs., but does not exceed 65 lbs., 200 lb. test will be used. If made of higher test stock, or in any other respect special, extra charge is to be made for the additional cost.

All wooden cases shall be made from yellow pine lumber, nailed construction. Ends ⅜ inches, with exception of 64 oz. which has 13/16 inch; all sides, tops and bottoms ⅜ inches; ends and sides 1 and 2 pieces, tops and bottoms 2 and 3 pieces.

Packing material for wooden cases consists of double face shoulder height partitions, single face shoulder height liners, single face top and bottom pads, with the exception of ½ Gallons, which have double face shoulder height partitions, double double shoulder height liners, double double top and bottom pads.

If cases are made of thicker lumber, or of more expensive material, or if special packing material is required, extra charge is to be made covering the additional cost.

No extra charge will be made for printing cases, but customer must furnish the necessary dies, or we will obtain them charging customer with the actual cost.

Where Buyer supplies corrugated paper or wooden cases for the packing of his bottles, the freight is to be prepaid to our factories and a charge of two (2) cents per corrugated paper case and three and one-half (3½) cents per wooden case is to be added to the bulk prices for handling and re-shipment. It is understood where wooden cases are supplied, they are to be nailed or lockcornered before shipment is made to us, but if shipped to us in shook form an extra charge of three and one-half (3½) cents per case for nailing will be made in addition to the three and one-half (3½) cents per case for handling and re-shipment.

Basis for Figuring Quantity Prices:

The prices given apply on orders from 500 to 5000 Gross.
On orders from 5,000 to 25,000 Gross deduct 5c per gross.
On orders from 25,000 to 50,000 Gross deduct 10c per gross.
On orders from 50,000 to 100,000 Gross deduct 15c per gross.
On orders over 100,000 Gross, deduct 20c per gross.
On orders for carload and up to 500 Gross, add 5c per gross.
On less than carload orders add 5c per gross, and allow no freight.

No allowance is to be made for the return of empty crates.

Warranties: Bottles shall be of good merchantable quality, and the breakage in first washing, filling and sterilizing, done with reasonable care, shall not exceed two (2) per cent of all bottles delivered on contract. Buyer assumes liability for all breakage not in excess of two per cent (2%). Seller shall not be liable for more than the contract price of such bottles broken, defective or short and does not assume any responsibility for loss of contents, or any other loss whatsoever.

The Owens Bottle Company

GENERAL OFFICES
TOLEDO, OHIO

Narrow Mouth Condiment and Fruit Juice Bottles

PRICE LIST

Effective November 15, 1924

Subject to change without notice

16028

Prices are f. o. b. our factories with present carload rate of freight allowed in Eastern and Western free delivery territory; buyer to pay all Federal Transportation Taxes. To points outside of free delivery territory, freight is to be equalized with one of the following points, whichever takes the lowest freight rate to destination: St. Louis, Mo., Chicago, Ill., Muscatine, Iowa, Grand Rapids, Lansing and Detroit, Mich., Louisville, Ky., Richmond, Va.

Terms: Thirty (30) days net, or less one (1) per cent for cash, after deducting freight allowance, if paid within ten (10) days from date of invoice.

Contracts for Grape Juice and Cider bottles require shipment of all bottles prior to September 1, 1925, and contracts for Catsup, Chili Sauce, Mayonnaise, Salad Dressing, Vinegar, etc., prior to December 31, 1925.

Definite specifications for quantity covered by contract shall be required at the time it is signed.

Classification: To find the proper price for any bottle, first ascertain the product that is to be packed therein, and use the prices listed herein applying on ware so described. Measure the liquid capacity to the filling point which is shown under each list. If the capacity is not shown in the list, take the price on the nearest larger capacity. When the weight exceeds the maximum weight specified, use price opposite the actual making weight. When intermediate use next higher list price. For bottles made at a lighter weight there must be no reduction made in list price.

Reshipping cases: Paper cases, unless otherwise specified, will be of standard quality regular slotted construction. Where gross weight of box and filled bottles does not exceed 40 lbs., 175 lb. Mullen test will be supplied. Where gross weight exceeds 40 lbs., but does not exceed 65 lbs., 200 lb. test will be used. If made of higher test stock, or in any other respect special, extra charge is to be made for the additional cost.

All wooden cases shall be made from yellow pine lumber, nailed construction. Ends 5/8 inches, with exception of 64 oz. which has 11/16 inch; all sides, tops and bottoms 5/8 inches; ends and sides 1 and 2 pieces, tops and bottoms 2 and 3 pieces.

Packing material for wooden cases consists of double face shoulder height partitions, single face shoulder height liners, single face top and bottom pads, with the exception of ½ Gallons, which have double face shoulder height partitions, double double shoulder height liners, double double top and bottom pads.

If cases are made of heavier lumber, or of more expensive material, or if special packing material is required, extra charge is to be made covering the additional cost.

No extra charge will be made for printing cases, but customer must furnish the necessary dies, or we will obtain them, charging customer with the actual cost.

Where Buyer supplies corrugated paper or wooden cases for the packing of his bottles, the freight is to be prepaid to our factories and a charge of two (2) cents per corrugated paper case and three and one-half (3½) cents per wooden case is to be added to the bulk prices, for handling and re-shipment. It is understood where wooden cases are supplied, they are to be nailed or lockcornered before shipment is made to us, but if shipped to us in shook form an extra charge of three and one-half (3½) cents per case for nailing will be made in addition to the three and one-half (3½) cents per case for handling and re-shipment.

Basis for Figuring Quantity Prices:

The prices given apply on orders from 500 to 5,000 Gross.

On orders from 5,000 to 25,000 Gross deduct 5c per gross.

On orders from 25,000 to 50,000 Gross deduct 10c per gross.

On orders from 50,000 to 100,000 Gross deduct 15c per gross.

On orders over 100,000 Gross, deduct 20c per gross.

On orders for carload and up to 500 Gross, add 5c per gross.

On less than carload orders add 5c per gross, and allow no freight.

No allowance is to be made for the return of empty crates.

Warranties: Bottles shall be of good merchantable quality, and the breakage in first washing, filling and sterilizing, done with reasonable care, shall not exceed two (2) per cent of all bottles delivered on contract. Buyer assumes liability for all breakage not in excess of two per cent (2%). Seller shall not be liable for more than the contract price of such bottles broken, defective or short and does not assume any responsibility for loss of contents, or any other loss whatsoever.

When the weight exceeds the maximum weight specified, use price opposite the actual making weight. When intermediate use next higher list price. For bottles made at a lighter weight there must be no reduction made in list price.

Reshipping cases: Paper cases, unless otherwise specified, will be of standard quality regular slotted construction. Where gross weight of box and filled bottles does not exceed 40 lbs., 175 lb. Mullen test will be supplied. Where gross weight exceeds 40 lbs., but does not exceed 65 lbs., 200 lb. test will be used. If made of higher test stock, or in any other respect special, extra charge is to be made for the additional cost.

All wooden cases shall be made from yellow pine lumber, nailed construction. Ends ⅝ inch, with exception of 64 oz. which has 1⅛ inch; all sides, tops and bottoms ⅜ inch; ends and sides 1 and 2 pieces, tops and bottoms 2 and 3 pieces.

Packing material for wooden cases consist of double face shoulder height partitions, single face shoulder height liners, single face top and bottom pads, with the exception of ½ Gallons, which have double face shoulder height partitions, double double shoulder height liners, double double top and bottom pads.

If cases are made of heavier lumber, or of more expensive material, or if special packing material is required, extra charge is to be made covering the additional cost.

No extra charge will be made for printing cases, but customer must furnish the necessary dies, or we will obtain them, charging customer with the actual cost.

Where Buyer supplies corrugated paper or wooden cases for the packing of his bottles, the freight is to be prepaid to our factories and a charge of two (2) cents per corrugated paper case and three and one-half (3½) cents per wooden case is to be added to the bulk prices, for handling and re-shipment. It is understood where wooden cases are supplied, they are to be nailed or lockcornered before shipment is made to us, but if shipped to us in shook form an extra charge of three and one-half (3½) cents per case for nailing will be made in addition to the three and one-half (3½) cents per case for handling and re-shipment.

Basis for Figuring Quantity Prices:

The prices given apply on orders from 500 to 5,000 Gross.

On orders from 5,000 to 25,000 Gross deduct 5c per gross.

On orders from 25,000 to 50,000 Gross deduct 10c per gross.

On orders from 50,000 to 100,000 Gross deduct 15c per gross.

On orders over 100,000 Gross, deduct 20c per gross.

On orders for carload and up to 500 Gross, add 5c per gross.

On less than carload orders add 5c per gross, and allow no freight.

No allowance is to be made for the return of empty crates.

Warranties: Bottles shall be of good merchantable quality, and the breakage in first washing, filling and sterilizing, done with reasonable care, shall not exceed two (2) per cent of all bottles delivered on contract. Buyer assumes liability for all breakage not in excess of two per cent (2%). Seller shall not be liable for more than the contract price of such bottles broken, defective or short and does not assume any responsibility for loss of contents, or any other loss whatsoever.

The Owens Bottle Company

GENERAL OFFICES
TOLEDO, OHIO

Narrow Mouth Condiment and Fruit Juice Bottles

PRICE LIST

Effective October 19, 1926

Subject to change without notice

16052

Prices are f. o. b. our factories with present carload rate of freight allowed in Eastern and Western free delivery territory; buyer to pay all Federal Transportation Taxes. To points outside of free delivery territory, freight is to be equalized with one of the following points, whichever takes the lowest freight rate to destination: St. Louis, Mo., Chicago, Ill., Muscatine, Iowa, Grand Rapids, Lansing and Detroit, Mich., Louisville, Ky., Richmond, Va.

Terms: Thirty (30) days net, or less one (1) per cent for cash, after deducting freight allowance, if paid within ten (10) days from date of invoice.

Contracts for Grape Juice and Cider bottles require shipment of all bottles prior to September 1, 1927, and contracts for Catsup, Chili Sauce, Mayonnaise, Salad Dressing, Vinegar, etc., prior to December 31, 1927.

Definite specifications for quantity covered by contract shall be required at the time it is signed.

Classification: To find the proper price for any bottle, first ascertain the product that is to be packed therein, and use the prices listed herein applying on ware so described. Measure the liquid capacity to the filling point which is shown under each list. If the capacity is not shown in the list, take the price on the nearest larger capacity. When the weight exceeds the maximum weight specified, use price opposite the actual making weight. When intermediate use next higher list price. For bottles made at a lighter weight there must be no reduction made in list price.

Reshipping cases: Paper cases, unless otherwise specified, will be of standard quality regular slotted construction. Where gross weight of box and filled bottles does not exceed 40 lbs., 175 lb. Mullen test will be supplied. Where gross weight exceeds 40 lbs., but does not exceed 65 lbs., 200 lb. test will be used. If made of higher test stock, or in any other respect special, extra charge is to be made for the additional cost.

All wooden cases shall be made from yellow pine lumber, nailed construction. Ends $\frac{5}{8}$ inch, with exception of 64 oz. which has $1\frac{1}{16}$ inch; sides, tops and bottoms $\frac{3}{8}$ inch; ends and sides 1 and 2 pieces, tops and bottoms 2 and 3 pieces.

Packing material for wooden cases consists of double face shoulder height partitions, single face shoulder height liners, single face top and bottom pads, with the exception of ½ Gallons, which have double face shoulder height partitions, double double shoulder height liners, double double top and bottom pads.

If cases are made of heavier lumber, or of more expensive material, or if special packing material is required, extra charge is to be made covering the additional cost.

No extra charge will be made for printing cases, but customer must furnish the necessary dies, or we will obtain them, charging customer with the actual cost.

Where Buyer supplies corrugated paper or wpoden cases for the packing of his bottles, the freight is to be prepaid to our factories and a charge of two (2) cents per corrugated paper case and three and one-half (3½) cents per wooden case is to be added to the bulk prices, for handing and re-shipment. It is understood where wooden cases are supplied, they are to be nailed or lockcornered before shipment is made to us, but if shipped to us in shook form an extra charge of three and one-half (3½) cents per case for nailing will be made in addition to the three and one-half (3½) cents per case for handling and re-shipment.

Basis for Figuring Quantity Prices:

The prices given apply on orders from 500 to 5,000 Gross.
On orders from 5,000 to 25,000 Gross deduct 5c per gross.
On orders from 25,000 to 50,000 Gross deduct 10c per gross.
On orders from 50,000 to 100,000 Gross deduct 15c per gross.
On orders over 100,000 Gross, deduct 20c per gross.
On orders for carload and up to 500 Gross, add 5c per gross.
On less than carload orders add 5c per gross, and allow no freight.

No allowance is to be made for the return of empty crates.

Use the following table for orders which require the purchase of less than 1,000 corrugated cases or wood cases·

On an order requiring 500 to 1,000 cases, add 5%
On an order requiring 250 to 500 cases, add 10%
On an order requiring 100 to 250 cases, add 15%

On an order requiring less than 100 cases write Toledo Office for price.

The 5%, 10% and 15% mentioned above are to be added to list corrugated case or wood case prices.

Half Gallon and Gallon Jug prices, where stock cases are specified, are not affected by above.

Warranties: Bottles shall be of good merchantable quality, and the breakage in first washing, filling and sterilizing, done with reasonable care, shall not exceed two (2) per cent of all bottles delivered on contract. Buyer assumes liability for all breakage not in excess of two per cent (2%). Seller shall not be liable for more than the contract price of such bottles broken, defective or short and does not assume any responsibility for loss of contents, or any other loss whatsoever.

The Owens Bottle Company

GENERAL OFFICES
TOLEDO, OHIO

Narrow Mouth Condiment and Fruit Juice Bottles

PRICE LIST

Effective January 5, 1928

Subject to change without notice

16064

Prices are f. o. b. our factories with present carload rate of freight allowed in Eastern and Western free delivery territory; buyer to pay all Federal Transportation Taxes. To points outside of free delivery territory, freight is to be equalised with one of the following points, whichever takes the lowest freight rate to destination: St. Louis, Mo., Chicago, Ill., Muscatine, Iowa, Grand Rapids, Lansing and Detroit, Mich., Louisville, Ky., Richmond, Va.

Terms: Thirty (30) days net, or less one (1) per cent for cash, after deducting freight allowance, if paid within ten (10) days from date of invoice.

Contracts for Grape Juice and Cider bottles require shipment of all bottles prior to September 1, 1928, and contracts for Catsup, Chili Sauce, Mayonnaise, Salad Dressing, Vinegar, etc., prior to December 31, 1928.

Definite specifications for quantity covered by contract shall be required at the time it is signed.

Classification: To find the proper price for any bottle, first ascertain the product that is to be packed therein, and use the prices listed herein applying on ware so described. Measure the liquid capacity to the filling point which is shown under each list. If the capacity is not shown in the list, take the price on the nearest larger capacity. When the weight exceeds the maximum weight specified, use price opposite the actual making weight. When intermediate use next higher list price. For bottles made at a lighter weight there must be no reduction made in list price.

Reshipping cases: Paper cases, unless otherwise specified, will be of standard quality regular slotted construction. Where gross weight of box and filled bottles does not exceed 40 lbs., 175 lb. Mullen test will be supplied. Where gross weight exceeds 40 lbs., but does not exceed 65 lbs., 200 lb. test will be used. If made of higher test stock, or in any other respect special, extra charge is to be made for the additional cost.

All wooden cases shall be made from yellow pine lumber, nailed construction. Ends $\frac{5}{8}$ inch, with exception of 64 oz. which has $\frac{13}{16}$ inch; sides, tops and bottoms $\frac{3}{8}$ inch; ends and sides 1 and 2 pieces, tops and bottoms 2 and 3 pieces.

Packing material for wooden cases consists of double face shoulder height partitions, single face shoulder height liners, single face top and bottom pads, with the exception of ½ Gallons, which have double face shoulder height partitions, double double shoulder height liners, double double top and bottom pads.

If cases are made of heavier lumber, or of more expensive material, or if special packing material is required, extra charge is to be made covering the additional cost.

No extra charge will be made for printing cases, but customer must furnish the necessary dies, or we will obtain them, charging customer with the actual cost.

Where Buyer supplies corrugated paper or wooden cases for the packing of his bottles, the freight is to be prepaid to our factories and a charge of two (2) cents per corrugated paper case and three and one-half (3½) cents per wooden case is to be added to the bulk prices, for handling and re-shipment. It is understood where wooden cases are supplied, they are to be nailed or lockcornered before shipment is made to us, but if shipped to us in shook form an extra charge of three and one-half (3½) cents per case for nailing will be made in addition to the three and one-half (3½) cents per case for handling and re-shipment.

Basis for Figuring Quantity Prices:

The prices given apply on orders from 500 to 5,000 Gross.
On orders from 5,000 to 25,000 Gross deduct 5c per gross.
On orders from 25,000 to 50,000 Gross deduct 10c per gross.
On orders from 50,000 to 100,000 Gross deduct 15c per gross.
On orders over 100,000 Gross, deduct 20c per gross.
On orders for carload and up to 500 Gross, add 5c per gross.
On less than carload orders add 5c per gross, and allow no freight.

No allowance is to be made for the return of empty crates.

Use the following table for orders which require the purchase of less than 1,000 corrugated cases or wood cases:

On an order requiring 500 to 1,000 cases, add 5%
On an order requiring 250 to 500 cases, add 10%
On an order requiring 100 to 250 cases, add 15%

On an order requiring less than 100 cases write Toledo Office for price.

The 5%, 10% and 15% mentioned above are to be added to list corrugated case or wood case prices.

Half Gallon and Gallon Jug prices, where stock cases are specified, are not affected by above.

Warranties: Bottles shall be of good merchantable quality, and the breakage in first washing, filling and sterilizing, done with reasonable care, shall not exceed two (2) per cent of all bottles delivered on contract. Buyer assumes liability for all breakage not in excess of two per cent (2%). Seller shall not be liable for more than the contract price of such bottles broken, defective or short and does not assume any responsibility for loss of contents, or any other loss whatsoever.

FREIGHT ALLOWANCE

Prices are f. o. b., our factories with the lowest carload rate of freight allowed at time of shipment in Eastern and Western free delivery territory. To points outside of free delivery territory, freight is to be equalized with one of the following points, whichever takes the lowest freight rate to destination: St. Louis, Mo., Chicago, Ill., Muscatine, Iowa, Grand Rapids, Lansing and Detroit, Mich., Louisville, Ky., and Richmond, Va.

In quoting to points in California, Oregon and Washington, freight is to be equalized with Chicago or St. Louis, if shipment is to be made by rail. If shipment is to be made by water, then freight is to be added to the list prices at the rate of 40c per hundred pounds, and at "delivered prices" arrived at in this manner, delivery will be made to Los Angeles, San Francisco, Portland, Tacoma and Seattle. In quoting to inland towns, prices are to be named only to the ports mentioned above, and freight from the ports to destination will be at the customer's expense. Note, however, that the City of Los Angeles is to be considered as a port and that carrying charges from San Pedro, the port of Los Angeles, to Los Angeles, will be absorbed by us. Note also we will absorb all Marine Insurance, Wharfage and State Toll charges on all shipments made via water to the above ports. Note also that on rail and water shipments, our terms to points in California, Oregon and Washington will be 1-10-30 from date of arrival at port.

FREE DELIVERY TERRITORY

Commencing at Alton, Illinois, on the Mississippi River, thence following the river through Hannibal, Missouri; Quincy, Illinois; Keokuk, Fort Madison and Burlington, Iowa; Rock Island, Illinois; Davenport and Clinton, Iowa; then leaving the river in a northeasterly direction through Freeport and Rockford, Illinois; Waukesha and Milwaukee, Wisconsin; crossing Lake Michigan through Muskegon, Grand Rapids, Lansing and Detroit, Michigan; crossing Lake Erie through Cleveland, Ohio; then to Erie, Pennsylvania and including all of the states of New York, Pennsylvania, Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New Jersey, Delaware, Maryland, Virginia, District of Columbia and West Virginia; then following the Ohio River through Cincinnati, Ohio; Covington and Louisville, Kentucky; to Cairo, Illinois; thence following the Mississippi River north through St. Louis to point of beginning.

Dubuque and Cedar Rapids, Iowa, and Lexington, Kentucky, are to be considered free delivery points.

16085

TERMS

Thirty (30) days net, or less one (1%) per cent for cash, after deducting freight allowance, if paid within ten (10) days from date of invoice.

CONTRACTS AND SPECIFICATIONS

Contracts for Grape Juice and Cider bottles shall require shipment of all bottles prior to September 1, 1929, and contracts for Catsup, Chili Sauce, Mayonnaise, Salad Dressing, Vinegar, etc., prior to December 31, 1929.

Definite specifications for quantity covered by contract shall be required at the time it is signed.

CLASSIFICATION

To find the proper price for any bottle, first ascertain the product that is to be packed therein, and use the prices listed herein applying on ware so described. Measure the liquid capacity to the filling point which is shown under each classification. If the capacity is not shown in the classification, use next higher price. When the weight exceeds the maximum weight specified, use price opposite the actual making weight. When intermediate use next higher price. For bottles made at a lighter weight, there will be no reduction in price.

RESHIPPING CASES

Corrugated paper cases, unless otherwise specified, will be of standard quality regular slotted construction. Where gross weight of box and filled bottles does not exceed 40 lbs., 175 lb. Mullen test will be supplied. Where gross weight exceeds 40 lbs., but does not exceed 65 lbs., 200 lb. test will be used. If made of higher test stock, or in any other respect special, extra charge is to be made for the additional cost.

All wooden cases shall be made from yellow pine lumber, nailed construction. Ends 5/8 inch, with exception of 64 oz. (which has 11/16 inch;) sides, tops and bottoms 3/8 inch; ends and sides one and two pieces, tops and bottoms two and three pieces.

Packing material for wooden cases consists of double face shoulder height partitions, single face shoulder height liners, single face top and bottom pads, with the exception of 1/2 gallons, which have double face shoulder height partitions, double double shoulder height liners, double double top and bottom pads.

If cases are made of heavier lumber, or of more expensive material, or if special packing material is required, extra charge is to be made covering the additional cost.

No extra charge will be made for printing cases, but customer must furnish the necessary dies, or we will obtain them, charging customer with the actual cost.

Where Buyer supplies corrugated paper or wooden cases for the packing of his bottles, the freight is to be prepaid to our factories and a charge of two (2) cents per corrugated paper case and three (3) cents per wooden case is to be added to the bulk prices, for handling. It is understood where wooden cases are supplied, they are to be nailed or lockcornered before shipped to us, but if shipped to us in shook form, an extra charge of two and one-half (2½) cents per case will be made in addition to the three (3) cents per case for handling.

BASIS FOR FIGURING QUANTITY PRICES

Prices contained in this Price List, except L-C-L prices, are to be quoted all buyers who purchase in car lots. Buyers using in a year's time in excess of 5,000 gross of bottles and jars are entitled to quantity allowances from list prices, dependent upon total quantity used per annum:

Buyers of 5,000 to 25,000 gross are entitled to quantity allowance of 5c per gross.

Buyers of 25,000 to 50,000 gross are entitled to quantity allowance of 10c per gross.

Buyers of 50,000 to 75,000 gross are entitled to quantity allowance of 15c per gross.

Buyers of 100,000 gross and over are entitled to quantity allowance of 20c per gross.

On less than carload orders, allow no freight.

A buyer is considered a 5,000 gross user if his requirements over a period of one year of both bottles and jars totals 5,000 gross, even though he divides his business and does not place all of it with one manufacturer. On the other hand, if a buyer uses 25,000 gross of bottles and jars, he is considered a 25,000 gross buyer, etc.

Special Note: This basis of figuring quantity prices applies to all classifications with the exception of vinegar bottles and jugs, half-gallon and gallon jug shape packers. The basis for figuring quantity prices on vinegar bottles and jugs is shown on page 7, and on half-gallon and gallon packers, page 12.

WOOD AND CORRUGATED CASE DIFFERENTIALS APPLYING ON ORDERS OF LESS THAN 1,000 CASES

Use the following table for orders which require the purchase of less than 1,000 corrugated cases or wood cases:

On an order requiring 500 to 999 cases, add 10%
On an order requiring 250 to 499 cases, add 15%
On an order requiring 100 to 249 cases, add 20%

On an order requiring less than 100 cases, write Toledo Office for price.

Add the above differentials to the case part of price only, on both corrugated and wood cases.

Half gallon and gallon jug prices, where stock cases are specified, are not affected by above.

NO ALLOWANCE IS TO BE MADE FOR THE RETURN OF EMPTY CRATES.

WARRANTIES

Bottles shall be of good merchantable quality, and the breakage in first washing, filling and sterilizing, done with reasonable care, shall not exceed two (2%) per cent of all bottles delivered on contract. Buyer assumes liability for all breakage not in excess of two (2%) per cent. Seller shall not be liable for more than the contract price of such bottles broken, defective or short and does not assume any responsibility for loss of contents, or any other loss whatsoever.

30	24	5.90	7.10			8.00	.50
32	24	5.90	7.10			8.00	.50

Important:—The filling points on vinegar bottles are as follows: 8 to 12 oz., 1½ in. from top of bottle; 14 to 16 oz., 2 in. from top of bottle; 18 to 32 oz., 2½ in. from top of bottle.

NO QUANTITY DISCOUNT ON VINEGAR BOTTLES OR JUGS WITH THE EXCEPTION OF 16 AND 32 OZ., IN PAPER CASES.

To buyers of ten carloads and upwards of vinegar bottles and jugs, you are privileged to offer a quantity discount of 25c per gross on these two items, making the price on the 16 oz. in 2 doz. corrugated cartons, to buyers of ten carloads or more, $4.75 per gross, and on the 32 oz. in 1 doz. cartons $7.75 per gross. A buyer is considered a ten carload buyer when he orders ten carloads or more of vinegar bottles and jugs, to be taken over a period of one year.

If 16 and 32 oz. vinegar bottles or jugs are required in City Delivery cartons, make the following deductions from regular carton prices listed above:

16 oz. packed in 2 dozen City Delivery cartons deduct 20c per gross.
16 oz. packed in 1 dozen City Delivery cartons deduct 25c per gross.
32 oz. packed in 1 dozen City Delivery cartons deduct 55c per gross.

For City Delivery differentials on all other sizes refer to page 13.

FLINT ONE-HALF GALLON AND GALLON JUG-SHAPE PACKERS WITH GLASS HANDLE

Capacity	Bulk	Crated
½ gallon	$ 9.75	$11.50
1 gallon	14.00	16.50

No. 1 STYLE

Packed in solid yellow pine nailed cases, with double face rag and rag open end cartons, double face top and bottom pads:

	Price per Case	Price per Gross
½ dozen ½ gallon	$0.76	$18.24
1 dozen ½ gallon	1.30	15.60
Individual 1 gallon	.26	37.44
½ dozen 1 gallon	.42	30.24
¼ dozen 1 gallon	.60	28.80
½ dozen 1 gallon	.77	27.72
½ dozen 1 gallon	1.07	25.68
1 dozen 1 gallon	2.13	25.56

No. 2 STYLE

Packed in yellow pine crates, in 175 lb. test cartons, each carton having two double face liners, double face top and bottom pads, which permits a filled bottle to be shipped via freight or express in one of these individual cartons when properly sealed (cartons pass railroad and express classifications):

	Price per Crate	Price per Gross
½ dozen ½ gallon	$1.10	$26.40
1 dozen ½ gallon	2.00	24.00
½ dozen 1 gallon	1.04	37.44
½ dozen 1 gallon	1.50	36.00
1 dozen 1 gallon	2.85	34.20

No. 3 STYLE

Packed in double wall outers, double face rag and rag open end cartons, no top or bottom pads:

	Price per Case	Price per Gross
½ dozen 1 gallon	$0.39	$23.08
¼ dozen 1 gallon	.57	27.36
½ dozen 1 gallon	.64	23.04

No. 4 STYLE

Packed in 200 lb. test double face outers, double face rag and rag open end cartons, double face liners, double face top and bottom pads:

	Price per Case	Price per Gross
½ dozen ½ gallon	$0.64	$15.36
¼ dozen gallon	.37	26.64
¼ dozen gallon	.53	25.44
½ dozen gallon	.61	21.96

No. 5 STYLE

Packed one to the individual 175 lb. test carton, having two double face liners, double face top and bottom pads, no crates or wood cases. (This package passes railroad and express classification):

	Price per Case	Price per Gross
½ gallon	$0.14	$20.16
Gallon	.19	27.36

No. 6 STYLE

Packed one to the individual 175 lb. test carton, without liners, top or bottom pads (commonly known as city delivery cartons):

	Price per Case	Price per Gross
½ gallon	$0.11	$15.84
Gallon	.15	21.60

No. 7 STYLE

Packed crate style, non-test cartons with partitions—no liners or pads. (These cartons can be used only for empty jugs for shipment in carloads only):

	Price per Gross
½ gallon—12-cell cartons	$11.20
Gallons — 4-cell cartons	17.25
Gallons — 6-cell cartons	16.50
Gallons —12-cell cartons	15.75

ADD $1.00 PER GROSS FOR WIRE BAIL HANDLES.

Add $2.75 per gross for special neck wires and bails to fit 96 m/m finish gallons. (These bails are wired to neck of jug.)

ADD $1.00 PER GROSS FOR GALLONS WITH FINISHES WIDER THAN 70 m/m.

The prices given above apply on orders from one carload to 999 gross.

On orders for 1,000 gross or more of either flint ½ gallon or gallon jug shape packers, or where a buyer's combined purchases of ½ gallon and gallon jug shape packers total 1,000 gross or more to be taken over a period of one year, deduct 50c per gross quantity discount on gallons and 25c per gross on ½ gallons.

On less than carload orders for both flint and amber jugs, add 50c per gross on gallons and 25c per gross on ½ gallons.

AMBER JUG SHAPE PACKERS, $2.00 PER GROSS EXTRA.

No quantity discount on amber jugs.

For special cases of any kind, either paper or wood, other than listed above, get in touch with Toledo for special price.

GALLON AND HALF-GALLON JUG SHAPE PACKERS

OWENS-ILLINOIS GLASS COMPANY
GENERAL OFFICES
TOLEDO, OHIO

Effective June 1st, 1930

Subject to change without notice

16104

CLASSIFICATION OF LISTS

List No. 1—Catsup Bottles.

2—Chili Sauce, Tall Semi-wide-mouth Salad Dressing, French Dressing, Pepper Sauce, and Cocktail Sauce Bottles.

3—Syrup, Grape Juice, Cider, Fruit Juice, Tomato Juice and Kraut Juice Bottles.

4—Vinegar Bottles and Glass Handle Jug Shape Packers up to and including 32 oz. capacity.

5—Worcestershire and Club Sauce Bottles.

6—Tall Bell Bottom Olive Oil and Salad Oil Bottles.

7—Short Fluted Olive Oil Bottles.

8—One-half Gallon and Gallon Jug Shape Packers.

NOTE—IMPORTANT

Prices shown in these lists are minimum for standard shapes. Inquiries for bottles of unusual shapes or special design are to be submitted to Home Office for prices.

METHOD OF DETERMINING THE PROPER PRICE APPLYING ON ANY GIVEN ITEM

PRICE DETERMINED BY BUYER'S PURCHASES OF EACH INDIVIDUAL ITEM

The price applicable for any given item is determined entirely by the Buyer's purchases in one year of that one particular item from us, and no allowance is to be made for his purchases of any other item or for total buying power of several styles of bottles.

In other words, Total Buying Power of a Buyer Who Uses More Than One Style of Bottle Shall Not Entitle Him to Carload Prices and Quantity Discount. Yearly purchases of each individual bottle shall determine the price for that bottle.

CARLOAD PRICES APPLY

Only on those individual items of which a Buyer places a firm order with us to be taken in one year, for a quantity of each item equal to at least a carload. The Buyer, however, may take these in straight, mixed, or pool cars.

L. C. L. PRICES APPLY

To any individual item of which a Buyer purchases less than a carload within a period of one year. Even though a Buyer may purchase an assortment of several items the total of which exceeds a carload, he shall not be entitled to better than less-than-carload prices on the individual items making up the assortment except on those items of which his purchases of each for one year equal or exceed a carload. L. C. L. prices given herein are minimum. On an order amounting to less than one hundred dollars, 33⅓ per cent is to be added to the L. C. L. prices.

LARGE QUANTITY PRICE

Buyers who place firm orders or contracts to purchase from us in a year's time a large quantity of an individual item will be entitled to the following concessions from the Car Lot Prices:

UP TO AND INCLUDING 8 OUNCE CAPACITY

More than 10,000 gross and less than 25,000 gross, 10c per gross.
More than 25,000 gross, 20c per gross.

OVER 8 OUNCES AND INCLUDING 16 OUNCE CAPACITY

More than 5,000 gross and less than 10,000 gross, 15c per gross.
More than 10,000 gross, 25c per gross.

OVER 16 OUNCES AND INCLUDING 32 OUNCE CAPACITY

More than 3,000 gross and less than 5,000 gross, 25c per gross.
More than 5,000 gross, 40c per gross.

OVER 32 OUNCES AND INCLUDING 64 OUNCE CAPACITY

More than 2,000 gross and less than 4,000 gross, 35c per gross.
More than 4,000 gross, 50c per gross.

OVER 64 OUNCES IN CAPACITY

More than 1,000 gross, $1.00 per gross.

NOTE:—These Quantity Buyer Prices are only to be quoted after consultation with the Home Office, and we must be satisfied that the Buyer will actually purchase these quantities from us.

PRICE TO BOTTLE JOBBERS

In quoting bottle jobbers use the price as indicated covering bottle desired. The price to be based on the quantity purchased. No further discount or commission is to be allowed.

FREIGHT ALLOWANCE

Prices are f. o. b. our factories with the lowest carload rate of freight allowed at time of shipment in free delivery territory. To points outside of free delivery territory, freight is to be added using rates indicated in freight rate book No. 5.

In quoting to points in California, Oregon and Washington, freight is to be equalized with Chicago or St. Louis, if shipment is to be made by rail. If shipment is to be made by water, then freight is to be added to the list prices at the rate of 50c per hundred pounds, and at "delivered prices" computed in this manner; delivery will be made to Los Angeles, San Francisco, Portland, Tacoma and Seattle. In quoting to inland towns, prices are to be named only to the ports mentioned above, and freight from the ports to destination will be at the customer's expense. Note, however, that the city of Los Angeles is to be considered as a port and that carrying charges from San Pedro, the port of Los Angeles, to Los Angeles, will be absorbed by us. Note also we will absorb all Marine Insurance, Wharfage and State Toll charges on all shipments made via water to the above ports.

FREE DELIVERY TERRITORY

Commencing at Alton, Illinois, on the Mississippi River, thence following the river through Hannibal, Missouri; Quincy, Illinois; Keokuk, Fort Madison and Burlington, Iowa; Rock Island, Illinois; Davenport and Clinton, Iowa; then leaving the river in a northeasterly direction through Freeport and Rockford, Illinois; Waukesha and Milwaukee, Wisconsin; crossing Lake Michigan through Muskegon, Grand Rapids, Lansing and Detroit, Michigan; crossing Lake Erie through Cleveland, Ohio; then to Erie, Pennsylvania and including all of the states of New York, Pennsylvania, Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New Jersey, Delaware, Maryland, Virginia, District of Columbia and West Virginia; then following the Ohio River through Cincinnati, Ohio; Covington and Louisville, Kentucky; to Cairo, Illinois; thence following the Mississippi River north through St. Louis to point of beginning. Dubuque and Cedar Rapids, Iowa, and Lexington and Frankfort, Kentucky, are to be considered free delivery points.

TERMS

Thirty (30) days net, or less one (1%) per cent for cash, after deducting freight allowance, if paid within ten (10) days from date of invoice.

CLASSIFICATION

To find the proper price for any bottle, first ascertain the product that is to be packed therein, and use the prices listed herein applying on ware so described. Measure the liquid capacity to the filling point which is shown under each classification. If the capacity is not shown in the classification, use next higher capacity price. (For example: a 2¾ oz. container will take the 3 oz. price.) When the weight exceeds the maximum weight specified, use price opposite the actual making weight. When intermediate, use price given for next higher weight. For bottles made at a lighter weight, there will be no reduction in price.

RESHIPPING CASES

Corrugated paper cases, unless otherwise specified, will be of standard quality, regular slotted construction. Where gross weight of box and filled bottles does not exceed 40 lbs., 175 lb. Mullen test will be supplied. Where gross weight exceeds 40 lbs., but does not exceed 65 lbs., 200 lb. test will be used. If made of higher test stock, or in any other respect special, extra charge is to be made to cover the additional cost.

All wooden cases shall be made from yellow pine lumber, nailed construction. Ends 5/8 in. with exception of 64 oz. (which has 13/16 in.); sides, tops and bottoms 3/8 in.; ends and sides one and two pieces, tops and bottoms two and three pieces.

Packing material for wooden cases consists of double face shoulder height partitions, single face shoulder height liners, single face top and bottom pads, with the exception of 1/2 gals., which have double face shoulder height partitions, double double shoulder height liners, double double top and bottom pads. (For gallons—see special list.)

If cases are made of heavier lumber, or of more expensive material, or if special packing material is required, extra charge is to be made covering the additional cost.

No extra charge will be made for printing cases, but customer must furnish the necessary dies, or we will obtain them, charging customer with the actual cost.

Where Buyer supplies corrugated paper or wooden cases for the packing of his bottles, the freight is to be prepaid to our factories and a charge of one (1) cent per corrugated paper case and two (2) cents per wooden case is to be added to the bulk prices, for handling. It is understood where wooden cases are supplied, they are to be nailed or lock-cornered before shipped to us, but if shipped to us in shook form, an extra charge of two (2) cents per case will be made for assembling in addition to the two (2) cents per case for handling.

WOOD AND CORRUGATED CASE DIFFERENTIALS

APPLYING ON ORDERS OF LESS THAN 1000 CASES

Use the following table for orders which require the manufacture of less than 1000 corrugated cases or wood cases.

On an order requiring 500 to 999 cases, add .03 per carton.
On an order requiring 250 to 499 cases, add .05 per carton.
On an order requiring 100 to 249 cases, add .12 per carton.
On an order requiring less than 100 cases, write Toledo Office for price.

Add the above differentials to the case part of price only, on both corrugated and wood cases.

Half gallon and gallon jug prices, where stock cases are specified, are not affected by above.

NO ALLOWANCE IS TO BE MADE FOR THE RETURN OF EMPTY CRATES

8347

SPECIAL BOTTLES REQUIRING NE.. MOLD EQUIPMENT

On special bottles requiring new mold equipment it will not be our policy to absorb expense of mold. These will be charged to customer and this charge will be in addition to the proper list price of the bottle. Exceptions may be made in cases where quantity involved and nature of business justify the expense of equipment. This shall be entirely at our discretion.

POOL CAR SHIPMENTS

Shipments included in pool cars at delivered prices are strictly f. o. b. pool car destination. No allowance will be made for drayage or transfer charge. When shipment is reforwarded beyond pool car destination no allowance will be made for transfer charge or additional freight.

LIST No. 1

PRICES FOR CATSUP BOTTLES

Capacity Ozs.	Max. Wt. Ozs.	Bulk	Crates	Corrugated Reshipping Cartons 4 Doz.	3 Doz.	2 Doz.	Add For LCL

LIST No. 8

PRICES FOR FLINT ONE-HALF GALLON AND GALLON JUG-SHAPE PACKERS WITH GLASS HANDLE

Capacity	Bulk	Crated
½ Gallon	$ 8.75	$10.50
1 Gallon	12.00	14.50

No. 1 STYLE

Packed in solid yellow pine nailed cases, with double face rag and rag open end cartons, double face top and bottom pads.

	Price Per Case	Price Per Gross
1/2 dozen 1/2 gallon	$0.68	$16.32
1 dozen 1/2 gallon	1.25	15.00
Individual 1 gallon	.26	37.44
1/6 dozen 1 gallon	.43	30.24
1/4 dozen 1 gallon	.60	28.80
1/3 dozen 1 gallon	.70	25.20
1/2 dozen 1 gallon	.97	23.28

No. 2 STYLE

Packed in yellow pine crates, in 175 lb. test cartons, each carton having two double face liners, double face top and bottom pads, which permits a filled bottle to be shipped via freight or express in one of these individual cartons when properly sealed (cartons pass railroad and express classifications).

	Price Per Crate	Price Per Gross
1/2 dozen 1/2 gallon	$0.98	$23.52
1 dozen 1/2 gallon	1.62	21.84
1/3 dozen 1 gallon	.88	31.68
1/2 dozen 1 gallon	1.25	30.00

No. 3 STYLE

Packed in double wall outers, double face rag and rag open end cartons, no top or bottom pads:

	Price Per Case	Price Per Gross
1/6 dozen 1 gallon	$0.30	$21.60
1/4 dozen 1 gallon	.42	20.16
1/3 dozen 1 gallon	.55	19.80

No. 4 STYLE

Packed in 200 lb. test double face outers, double face rag and rag open end cartons, double face liners, double face top and bottom pads.

	Price Per Case	Price Per Gross
1/2 dozen 1/2 gallon	$0.54	$12.96
1/6 dozen gallon	.29	20.88
1/4 dozen gallon	.41	19.68
1/3 dozen gallon	.53	19.08

No. 5 STYLE

Packed one to the individual 175 lb. test carton, having two double face liners, double face top and bottom pads, no crates or wood cases. (This package passes railroad and express classification.)

	Price Per Case	Price Per Gross
1/2 gallon	$0.12	$17.28
Gallon	.15½	22.32

No. 6 STYLE

Packed one to the individual 175 lb. test carton, without liners, top or bottom pads (commonly known as city delivery cartons).

	Price Per Case	Price Per Gross
1/2 gallon	$0.09	$12.96
Gallon	.12	17.28

No. 7 STYLE

Packed crate style, non-test cartons with partitions—no liners or pads. (These cartons can be used for empty jugs for shipment in carloads only.)

	Price Per Gross
1/2 Gallon—12 cell cartons	$10.50
Gallons— 4 cell cartons	15.50
Gallons— 6 cell cartons	15.00
Gallons—12 cell cartons	14.50

On less than carload orders for both flint and amber jugs add $1.00 per gross on gallons and 75c per gross on 1/2 gallons.

Add $1.00 per gross for gallons with finishes wider than 70 m/m.

Add $1.00 per gross for wire bail handles for 70 m/m finishes or smaller.

Add $2.75 per gross for special neck wires and bails to fit 96 m/m and 120 m/m finish gallons. (These bails are wired to neck of jug.)

Add $3.25 per gross for special neck wires and bails to fit 131 m/m finish gallons. (These bails are wired to neck of jar.)

On orders for stippled jugs amounting to less than 500 gross add 50c per gross.

Amber jug-shape packers, $2.00 per gross extra. No quantity discount on amber jugs.

For special cases of any kind, either paper or wood, other than listed above, get in touch with Toledo for price.

CASE SCHEDULE

CITY DELIVERY CARTONS

The following differentials are to be deducted from the regular carton prices to arrive at correct price for ware packed in City Delivery Corrugated Cases

	6 Doz.	4 Doz.	3 Doz.	2 Doz.	1 Doz.	½ Doz.
3 oz. and less	$0.05	$0.05	$0.05	$0.10	$0.10	
4 to 8 ozs.		.05	.05	.10	.15	
9 to 14 ozs.			.10	.15	.20	
15 to 18 ozs.				.15	.20	.30
20 to 25 ozs.				.25	.30	.35
26 to 32 ozs.					.35	.45

City delivery corrugated paper cases consist only of outer cartons and partitions—no liners or pads. Empty bottles packed in these cartons cannot be shipped in L. C. L. quantities.

City delivery cartons do not pass railroad classifications for shipment of filled bottles.

9—One-half Gallon and Gallon Jug Shape Packers.

NOTE—IMPORTANT

Prices shown in these lists are minimum for standard shapes.

Inquiries for bottles of unusual shapes or special designs are to be submitted to Home Office for prices.

METHOD OF DETERMINING THE PROPER PRICE APPLYING ON ANY GIVEN ITEM
EXCEPT CATSUP, CHILI SAUCE and VINEGAR

(See pages 7, 8 and 11)

PRICE DETERMINED BY BUYER'S PURCHASES OF EACH INDIVIDUAL ITEM

The price applicable for any given item is determined entirely by the Buyer's purchases in one year of that one particular item from us, and no allowance is to be made for his purchases of any other item or for total buying power of several styles of bottles.

In other words, Total Buying Power of a Buyer Who Uses More Than One Style of Bottle Shall Not Entitle Him to Carload Prices and Quantity Discount. Yearly purchases of each individual bottle shall determine the price for that bottle.

CARLOAD PRICES APPLY

Only on those individual items of which a Buyer places a firm order with us to be taken in one year for a quantity of each item equal to at least a carload. The Buyer, however, may take these in straight, mixed, or pool cars.

L. C. L. PRICES APPLY

To any individual item of which a Buyer purchases less than a carload within a period of one year. Even though a Buyer may purchase an assortment of several items the total of which exceeds a carload, he shall not be entitled to better than less-than-carload prices on the individual items making up the assortment except on those items of which his purchases of each for one year equal or exceed a carload. L. C. L. prices given herein are minimum. On an order amounting to less than one hundred dollars, 33⅓ per cent is to be added to the L. C. L. prices.

LARGE QUANTITY PRICE

Buyers who place firm orders or contracts to purchase from us in a year's time a large quantity of an individual item will be entitled to the following concessions from the Carlot Prices:

UP TO AND INCLUDING 8 OUNCE CAPACITY

More than 10,000 gross and less than 25,000 gross, 10c per gross.
More than 25,000 gross, 20c per gross.

OVER 8 OUNCES AND INCLUDING 16 OUNCE CAPACITY

More than 5,000 gross and less than 10,000 gross, 15c per gross.
More than 10,000 gross, 25c per gross.

OVER 16 OUNCES AND INCLUDING 32 OUNCE CAPACITY

More than 3,000 gross and less than 5,000 gross, 25c per gross.
More than 5,000 gross, 40c per gross.

OVER 32 OUNCES AND INCLUDING 64 OUNCE CAPACITY

More than 2,000 gross and less than 4,000 gross, 35c per gross.
More than 4,000 gross, 50c per gross.

OVER 64 OUNCES IN CAPACITY

More than 1,000 gross, $1.00 per gross.

NOTE:—These Quantity Buyer Prices are only to be quoted after consultation with the Home Office, and we must be satisfied that the Buyer will actually purchase these quantities from us.

PRICE TO BOTTLE JOBBERS

In quoting bottle jobbers use the price as indicated covering bottle desired. The price to be based on the quantity purchased. No further discount or commission is to be allowed.

FREIGHT ALLOWANCE

Prices are f. o. b. our factories with the lowest carload rate of freight allowed at time of shipment in free delivery territory. To points outside of free delivery territory, freight is to be added using rates indicated in freight rate book No. 5.

In quoting to points in California, Oregon and Washington, freight is to be equalized with Chicago or St. Louis, if shipment is to be made by rail. If shipment is to be made by water, then freight is to be added to the list prices at the rate of 50c per hundred pounds, and at "delivered prices" computed in this manner, delivery will be made to Los Angeles, San Francisco, Portland, Tacoma and Seattle. In quoting to inland towns, prices are to be named only to the ports mentioned above, and freight from the ports to destination will be at the customer's expense. Note, however, that the city of Los Angeles is to be considered as a port and that carrying charges from San Pedro, the port of Los Angeles, to Los Angeles, will be absorbed by us. Note also, we will absorb all Marine Insurance, Wharfage and State Toll charges on all shipments made via water to the above ports.

L. C. L. Shipments F. O. B. Factory—NO FREIGHT ALLOWANCE.

FREE DELIVERY TERRITORY

Commencing at Alton, Illinois, on the Mississippi River, thence following the river through Hannibal, Missouri; Quincy, Illinois; Keokuk, Fort Madison and Burlington, Iowa; Rock Island, Illinois; Davenport and Clinton, Iowa; then leaving the river in a northeasterly direction through Freeport and Rockford, Illinois; Waukesha and Milwaukee, Wisconsin; crossing Lake Michigan through Muskegon, Grand Rapids, Lansing and Detroit, Michigan; crossing Lake Erie through Cleveland, Ohio; then to Erie, Pennsylvania, and including all of the states of New York, Pennsylvania, Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New Jersey, Delaware, Maryland, Virginia, District of Columbia and West Virginia; then following the Ohio River through Cincinnati, Ohio; Covington and Louisville, Kentucky; to Cairo, Illinois; thence following the Mississippi River north through St. Louis to point of beginning. Dubuque and Cedar Rapids, Iowa, and Lexington and Frankfort, Kentucky, are to be considered free delivery points.

TERMS

Thirty (30) days net, or less one (1%) per cent for cash, after deducting freight allowance, if paid within ten (10) days from date of invoice.

CLASSIFICATION

To find the proper price for any bottle, first ascertain the product that is to be packed therein, and use the prices listed herein applying on ware so described. Measure the liquid capacity to the filling point which is shown under each classification. If the capacity is not shown in the classification, use next higher capacity price. (For example: a 2¾ oz. container will take the 3 oz. price.) When the weight exceeds the maximum weight specified, use price opposite the actual making weight. When intermediate, use price given for next higher weight. For bottles made at a lighter weight, there will be no reduction in price.

RESHIPPING CASES

Corrugated paper cases, unless otherwise specified, will be of standard quality, regular slotted construction. Where gross weight of box and filled bottles does not exceed 40 lbs., 175 lb. Mullen test will be supplied. Where gross weight exceeds 40 lbs., but does not exceed 65 lbs., 200 lb. test will be used. If made of higher test stock, or in any other respect special, extra charge is to be made to cover the additional cost.

All wooden cases shall be made from yellow pine lumber, nailed construction. Ends ⅝ in. with exception of 64 oz. (which has 13/16 in.); sides, tops and bottoms ⅜ in.; ends and sides one and two pieces, tops and bottoms two and three pieces.

Packing material for wooden cases consists of double face shoulder height partitions, single face shoulder height liners, single face top and bottom pads, with the exception of ½ gals., which have double face shoulder height partitions, double double shoulder height liners, double double top and bottom pads. (For gallons—see special list.)

If cases are made of heavier lumber, or of more expensive material, or if special packing material is required, extra charge is to be made covering the additional cost.

No extra charge will be made for printing cases, but customer must furnish the necessary dies, or we will obtain them, charging customer with the actual cost.

Where Buyer supplies corrugated paper or wooden cases for the packing of his bottles, the freight is to be prepaid to our factories and a charge of one (1) cent per corrugated paper case and two (2) cents per wooden case is to be added to the bulk prices, for handling. It is understood where wooden cases are supplied, they are to be nailed or lock-cornered before shipped to us, but if shipped to us in shook form, an extra charge of two (2) cents per case will be made for assembling in addition to the two (2) cents per case for handling.

WOOD AND CORRUGATED CASE DIFFERENTIALS

APPLYING ON ORDERS OF LESS THAN 1000 CASES

Use the following table for orders which require the manufacture of less than 1000 corrugated cases or wood cases:

On an order requiring 500 to 999 cases, add .03 per carton.
On an order requiring 250 to 499 cases, add .05 per carton.
On an order requiring 100 to 249 cases, add .12 per carton.
On an order requiring less than 100 cases, write Toledo Office for price.

Add the above differentials to the case part of price only, on both corrugated and wood cases.

Half gallon and gallon jug prices, where stock cases are specified, are not affected by above.

NO ALLOWANCE IS TO BE MADE FOR THE RETURN OF EMPTY CRATES

8370

SPECIAL BOTTLES REQUIRING NEW MOLD EQUIPMENT

ON SPECIAL BOTTLES REQUIRING NEW MOLD EQUIPMENT IT WILL NOT BE OUR POLICY TO ABSORB EXPENSE OF MOLD. These will be charged to customer and this charge will be in addition to the proper list price of the bottle. Exceptions may be made in cases where quantity involved and nature of business justify the expense of equipment. This shall be entirely at our discretion.

POOL CAR SHIPMENTS

Shipments included in pool cars at delivered prices are strictly f. o. b. pool car destination. No allowance will be made for drayage or transfer charge. When shipment is reforwarded beyond pool car destination no allowance will be made for transfer charge or additional freight.

LIST No. 1

PRICES FOR CATSUP BOTTLES

Capacity Ozs.	Max. Wt. Ozs.	Bulk	Crates	Corrugated Reshipping Cartons 4 Doz.	3 Doz.	2 Doz.	Add For LCL
5	6	$2.10	$2.35	$2.40	$2.45	$2.50	$0.30

9	One-half Gallon and Gallon Jug Shape Packers.	13

NOTE — IMPORTANT

Prices shown in these lists are minimum for standard shapes.

Inquiries for bottles of unusual shapes or special designs are to be submitted to Home Office for prices.

FREIGHT ALLOWANCE

Prices are f. o. b. our factories with the lowest carload rate of freight allowed at time of shipment in free delivery territory. To points outside of free delivery territory, freight is to be added using rates indicated in freight rate book No. 5, A.

In quoting to points in California, Oregon and Washington, freight is to be equalized with Chicago or St. Louis, if shipment is to be made by rail. If shipment is to be made by water, then freight is to be added to the list prices at the rate of 50c per hundred pounds, and at "delivered prices" computed in this manner, delivery will be made to Los Angeles, San Francisco, Portland, Tacoma and Seattle. In quoting to inland towns, prices are to be named only to the ports mentioned above, and freight from the ports to destination will be at the customer's expense. Note, however, that the city of Los Angeles is to be considered as a port and that carrying charges from San Pedro, the port of Los Angeles, to Los Angeles, will be absorbed by us. Note also, we will absorb all Marine Insurance, Wharfage and State Toll charges on all shipments made via water to the above ports.

L. C. L. Shipments F. O. B. Factory—NO FREIGHT ALLOWANCE.

FREE DELIVERY TERRITORY

Commencing at Alton, Illinois, on the Mississippi River, thence following the river through Hannibal, Missouri; Quincy, Illinois; Keokuk, Fort Madison and Burlington, Iowa; Rock Island, Illinois; Davenport and Clinton, Iowa; then leaving the river in a northeasterly direction through Freeport and Rockford, Illinois; Waukesha and Milwaukee, Wisconsin; crossing Lake Michigan through Muskegon, Grand Rapids, Lansing and Detroit, Michigan; crossing Lake Erie through Cleveland, Ohio; then to Erie, Pennsylvania, and including all of the states of New York, Pennsylvania, Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New Jersey, Delaware, Maryland, Virginia, District of Columbia and West Virginia; then following the Ohio River through Cincinnati, Ohio; Covington and Louisville, Kentucky; to Cairo, Illinois; thence following the Mississippi River north through St. Louis to point of beginning. Dubuque and Cedar Rapids, Iowa, and Lexington and Frankfort, Kentucky, are to be considered free delivery points.

TERMS

Thirty (30) days net, or less one (1%) per cent for cash, after deducting freight allowance, if paid within ten (10) days from date of invoice.

CLASSIFICATION

To find the proper price for any bottle, first ascertain the product that is to be packed therein, and use the prices listed herein applying on ware so described. Measure the liquid capacity to the filling point which is shown under each classification If the capacity is not shown in the classification, use next higher capacity price. (For example: a 2¾ oz. container will take the 3 oz. price.) When the weight exceeds the maximum weight specified, use price opposite the actual making weight. When intermediate, use price given for next higher weight. For bottles made at a ligher weight, there will be no reduction in price.

8393

REshipping CASES

Corrugated paper cases, unless otherwise specified, will be of standard quality, regular slotted construction. Where gross weight of box and filled bottles does not exceed 40 lbs., 175 lb. Mullen test will be supplied. Where gross weight exceeds 40 lbs., but does not exceed 65 lbs., 200 lb. test will be used. If made of higher test stock, or in any other respect special, extra charge is to be made to cover the additional cost.

All wooden cases shall be made from yellow pine lumber, nailed construction. Ends ½ in. with exception of 64 oz. (which has 13/16 in.); sides, tops and bottom ⅜ in.; ends and sides one and two pieces, tops and bottoms two and three pieces.

Packing material for wooden cases consists of double face shoulder height partitions, single face shoulder height liners, single face top and bottom pads, with the exception of ½ gals., which have double face shoulder height partitions, double double shoulder height liners, double double top and bottom pads. (For gallons—see special list).

If cases are made of heavier lumber, or of more expensive material, or if special packing material is required, extra charge is to be made covering the additional cost.

No extra charge will be made for printing cases, but customer must furnish the necessary dies, or we will obtain them, charging customer with the actual cost.

Where Buyer supplies corrugated paper or wooden cases for the packing of his bottles, the freight is to be prepaid to our factories and a charge of one (1) cent per corrugated paper case and two (2) cents per wooden case is to be added to the bulk prices, for handling. It is understood where wooden cases are supplied, they are to be nailed or lock-cornered before shipping to us, but if shipped to us in shook form, an extra charge of two (2) cents per case will be made for assembling in addition to the two (2) cents per case for handling.

WOOD AND CORRUGATED CASE DIFFERENTIALS

APPLYING ON ORDERS OF LESS THAN 1000 CASES

Use the following table for orders which require the manufacture of less than 1000 corrugated cases or wood cases:

On an order requiring 500 to 999 cases, add .03 per carton.
On an order requiring 250 to 499 cases, add .05 per carton.
On an order requiring 100 to 249 cases, add .12 per carton.
On an order requiring less than 100 cases, write Toledo Office for price.

Add the above differentials to the case part of price only, on both corrugated and wood cases.

Half gallon and gallon jug prices, where stock cases are specified, are not affected by above.

NO ALLOWANCE IS TO BE MADE FOR THE RETURN OF EMPTY CRATES

SPECIAL BOTTLES REQUIRING NEW MOLD EQUIPMENT

ON SPECIAL BOTTLES REQUIRING NEW MOLD EQUIPMENT IT WILL NOT BE OUR POLICY TO ABSORB EXPENSE OF MOLD. These will be charged to customer and this charge will be in addition to the proper list price of the bottle. Exceptions may be made in cases where quantity involved and nature of business justify the expense of equipment. This shall be entirely at our discretion.

POOL CAR SHIPMENTS

Shipments included in pool cars at delivered prices are strictly f. o. b. pool car destination. No allowance will be made for drayage or transfer charge. When shipment is reforwarded beyond pool car destination no allowance will be made for transfer charge or additional freight.

[fol. 16168] GOVERNMENT EXHIBIT No. 1599

IN UNITED STATES DISTRICT COURT

[Title omitted]

STIPULATION

It is hereby agreed by and between the parties hereto, by their respective counsel, that on the trial of this case it will be stipulated as follows:

1. For the purpose of these proceedings only, the documents attached to this stipulation, constituting

Price lists of Owens-Illinois Glass Company (or its predecessor) from 1922 to 1937 or 1938 for carload buyers for the sale of (1) beverage bottles of various sizes (one page); (2) liquor bottles of various sizes (1933 to 1937, only) (one page); (3) quart, pint, half-pint, and quarter-pint sized milk bottles (1931 to 1938, only) (one page); (4) narrow mouth bottles of various sizes (seven pages); and (5) P. & P. ware of various shapes and sizes (eleven pages),

if offered in evidence during the trial of this case, shall have the same force and effect as though offered through the testimony of competent witnesses, but nothing herein shall prevent the defendant Owens-Illinois Glass Company from introducing additional evidence in explanation of, or supplementing, such documents or any of them, or any matters therein referred to.

2. It is expressly understood and agreed that each of the parties hereto reserves the right, in the event that any one or more of said lists are offered in evidence, to object [fol. 16169] to the use or admission thereof on any ground whatsoever other than on the ground set forth in Paragraph 1 of this stipulation.

3. Neither of the parties, by entering into this stipulation, shall be deemed to have made any admission of any fact or facts for the purposes of any other or different suit or proceeding to which either or both of the parties hereto may be parties, regardless of whether such suit or proceed-

ing is between the parties hereto or between either or both of the parties hereto and any other person or persons.

E. B. Freed, Samuel S. Isseks, Counsel for Plaintiff, United States of America. Lloyd T. Williams, Henry A. Middleton, Counsel for Defendant Owens-Illinois Glass Company.

Dated Sept. 10, 1940.

[fol. 16192] GOVERNMENT EXHIBIT No. 1600

IN UNITED STATES DISTRICT COURT

[Title omitted]

STIPULATION

It is hereby agreed by and between the parties hereto, by their respective counsel, that on the trial of this case it will be stipulated as follows:

1. For the purpose of these proceedings only, the documents attached to this stipulation, constituting

(1) Report of trade statistics, Milk Bottle Manufacturers, by Glass Container Association to Owens-Illinois Glass Company dated July, 1938;

(2) Report of trade statistics from Glass Container Association to Owens-Illinois Glass Company dated July, 1938;

(3) Trade statistics of screw and lug type caps from Glass Container Association to Owens-Illinois Glass Company dated May, 1938;

(4) Trade statistics, molded caps, other than molded caps for tubes, from Glass Container Association to Owens-Illinois Glass Company dated May, 1938,

if offered in evidence during the trial of this case, shall have the same force and effect as though offered through the testimony of competent witnesses, but nothing herein shall prevent the defendant Owens-Illinois Glass Company from introducing additional evidence in explanation of, or [fol. 16193] supplementing, such documents or any of them, or any matters therein referred to.

2. It is expressly understood and agreed that each of the parties hereto reserves the right, in the event that any one or more of said documents are offered in evidence, to object to the use or admission thereof on any ground whatsoever other than on the ground set forth in Paragraph 1 of this stipulation.

3. Neither of the parties, by entering into this stipulation, shall be deemed to have made any admission of any

fact or facts for the purposes of any other or different suit or proceeding to which either or both of the parties hereto may be parties, regardless of whether such suit or proceeding is between the parties hereto or between either or both of the parties hereto and any other person or persons.

E. B. Freed, Samuel S. Isseks, Counsel for Plaintiff, United States of America. Lloyd T. Williams, Henry A. Middleton, Counsel for Defendant Owens-Illinois Glass Company.

Dated Sept. 10, 1940.

[fol. 16198] GOVERNMENT EXHIBIT No. 1601

IN UNITED STATES DISTRICT COURT

[Title omitted]

STIPULATION

It is hereby stipulated and agreed by and between the parties hereto, by their respective counsel, as follows:

1. For the purpose of these proceedings only and without prejudice to any other suits or proceedings between the parties hereto or to any other suits or proceedings to which any one or more of the parties hereto may be parties, or otherwise, the papers attached to this stipulation, constituting

Price lists for milk bottles, showing the prices charged each of various classes of customers for quart, pint, and half-pint sized milk bottles between July 15, 1918 and April 1, 1938 by Thatcher Manufacturing Company,

shall have the same force and effect as though offered and received in this proceeding through the testimony of competent witnesses.

2. None of the parties, by entering into this stipulation, shall be deemed to have made any admission for the pur-[fol. 16199] poses of any other or different suit or proceeding to which any one or more of the parties hereto may be parties, regardless of whether such suit or proceeding is between any of the parties hereto or between any one or more of the parties hereto and any other person or persons.

3. None of the parties, by entering into this stipulation, shall be deemed to have conceded the relevancy or materiality of any fact contained in the papers attached to this stipulation, and no objection shall be required to be entered on the record to preserve the right of any party to question such relevancy or materiality at any stage of the proceeding.

Seymour D. Lewis, Samuel S. Isaacs, Counsel for Plaintiff, United States of America.

Ralph Emery, Attorney for defendant Thatcher Mfg. Co., Counsel for Defendant, Thatcher Manufacturing Co.

IN UNITED STATES DISTRICT COURT

[Title omitted]

STIPULATION

It is hereby stipulated and agreed by and between the parties hereto, by their respective counsel, as follows:

1. For the purpose of these proceedings only and without prejudice to any of the parties hereto in any other suits or proceedings between the parties hereto or to any other suits or proceedings to which any one or more of the parties hereto may be parties, or otherwise, the papers attached to this stipulation, constituting

A table showing the number of gross milk bottles sold and the revenue received therefrom by Thatcher Manufacturing Company for each of the years from 1918 to 1937, inclusive, if and when the same shall be offered in evidence upon the trial of this proceeding, shall have the same force and effect as though offered and received in this proceeding through the testimony of competent witnesses.

2. None of the parties, by entering into this stipulation, shall be deemed to have made any admission for the purposes of any other or different suit or proceeding to which any one or more of the parties hereto may be parties, regardless of whether such suit or proceeding is between any of the parties hereto or between any one or more of the parties hereto and any other person or persons.

[fol. 16220] 3. None of the parties, by entering into this stipulation, shall be deemed to have conceded the relevancy or materiality of any fact contained in the papers attached to this stipulation, and no objection shall be required to be entered on the record to preserve the right of any party to question such relevancy or materiality at any stage of the proceeding.

——— ———, ——— ———, Counsel for Plaintiff, United States of America.

Ralph Emery, Counsel for Defendant, Thatcher Manufacturing Company.

[Title omitted]

STIPULATION

It is hereby stipulated and agreed by and between the parties hereto, by their respective counsel, as follows:

1. For the purpose of these proceedings only and without prejudice to any other suits or proceedings between the parties hereto or to any other suits or proceedings to which any one or more of the parties hereto may be parties, or otherwise, the papers attached to this stipulation, constituting

(1) The balance sheets of Thatcher Manufacturing Company (a) as of December 31 for each of the years from 1918 to 1937, inclusive, and (b) as of June 30 for each of the years from 1918 to 1922, inclusive, and for 1938; and

(2) Statement of Income and Profit and Loss of Thatcher Manufacturing Company for each of the calendar years from 1918 to 1937, inclusive,

shall have the same force and effect as though offered and received in this proceeding through the testimony of competent witnesses.

[fol. 16223] 2. None of the parties, by entering into this stipulation, shall be deemed to have made any admission for the purposes of any other or different suit or proceeding to which any one or more of the parties hereto may be parties, regardless of whether such suit or proceeding is between any of the parties hereto or between any one or more of the parties hereto and any other person or persons.

3. None of the parties, by entering into this stipulation, shall be deemed to have conceded the relevancy or materiality of any fact contained in the papers attached to this stipulation, and no objection shall be required to be entered on the record to preserve the right of any party to question such relevancy or materiality at any stage of the proceeding.

Samuel S. Isseks, Counsel for Plaintiff, United States of America.

Ralph Emery, Attorney for Defendant Thatcher Mfg. Co., Counsel for Defendant, Thatcher Manufacturing Company.

[Title omitted]

STIPULATION

It is hereby stipulated and agreed by and between the parties hereto, by their respective counsel, as follows:

1. For the purpose of these proceedings only and without prejudice to any of the parties hereto in any other suits or proceedings between the parties hereto or to any other suits or proceedings to which any one or more of the parties hereto may be parties, or otherwise, the papers attached to this stipulation, constituting

A table showing the number of gross milk bottles sold and the revenue received therefrom by Thatcher Manufacturing Company for each of the years from 1918 to 1937, inclusive, if and when the same shall be offered in evidence upon the trial of this proceeding, shall have the same force and effect as though offered and received in this proceeding through the testimony of competent witnesses.

2. None of the parties, by entering into this stipulation, shall be deemed to have made any admission for the purposes of any other or different suit or proceeding to which any one or more of the parties hereto may be parties, regardless of whether such suit or proceeding is between any of the parties hereto or between any one or more of the parties hereto and any other person or persons.

[fol. 16220] 3. None of the parties, by entering into this stipulation, shall be deemed to have conceded the relevancy or materiality of any fact contained in the papers attached to this stipulation, and no objection shall be required to be entered on the record to preserve the right of any party to question such relevancy or materiality at any stage of the proceeding.

—— ——, —— ——, Counsel for Plaintiff, United States of America.

Ralph Emery, Counsel for Defendant, Thatcher Manufacturing Company.

STIPULATION

It is hereby stipulated and agreed by and between the parties hereto, by their respective counsel, as follows:

1. For the purpose of these proceedings only and without prejudice to any other suits or proceedings between the parties hereto or to any other suits or proceedings to which any one or more of the parties hereto may be parties, or otherwise, the papers attached to this stipulation, constituting

(1) The balance sheets of Thatcher Manufacturing Company (a) as of December 31 for each of the years from 1918 to 1937, inclusive, and (b) as of June 30 for each of the years from 1918 to 1922, inclusive, and for 1938; and

(2) Statement of Income and Profit and Loss of Thatcher Manufacturing Company for each of the calendar years from 1918 to 1937, inclusive,

shall have the same force and effect as though offered and received in this proceeding through the testimony of competent witnesses.

[fol. 16223] 2. None of the parties, by entering into this stipulation, shall be deemed to have made any admission for the purposes of any other or different suit or proceeding to which any one or more of the parties hereto may be parties, regardless of whether such suit or proceeding is between any of the parties hereto or between any one or more of the parties hereto and any other person or persons.

3. None of the parties, by entering into this stipulation, shall be deemed to have conceded the relevancy or materiality of any fact contained in the papers attached to this stipulation, and no objection shall be required to be entered on the record to preserve the right of any party to question such relevancy or materiality at any stage of the proceeding.

[fol. 16242] CERTIFICATE

We have made a detailed audit of the accounts of Thatcher Manufacturing Company for the year ended December 31, and, subject to the contingent liabilities hereunder stated, in our opinion, the preceding Balance Sheet sets forth the financial condition of that company at December 31, 1932:

The company is jointly liable with another company in respect to the following matters relating to a third company.

(a) Guarantee of interest on 6% $744,000.00 bond issue for 3 years to December 1, 1935—maximum contingent liability $66,960.00.

(b) Guarantee of payment of notes for $45,000.00 with interest, principal payable in two equal amounts, with interest, July 1, 1933 and January 1, 1934—maximum contingent liability $24,187.50.

(c) Agreement by each to purchase $5,000.00 capital stock of third company at par, upon call—maximum liability $5,000.00.

(d) Agreement to purchase jointly as much of above 6% $744,000.00 bond issue as is offered at not to exceed a price substantially below par—maximum contingent liability $81,840.00.

[fol. 16244] CERTIFICATE

We have made a detailed audit of the balance sheet of Thatcher Manufacturing Company as at December 31, 1933, and of the statement of income and surplus for the year 1933. In connection therewith, we examined or tested accounting records of the Company and other supporting evidence, including confirmation of cash and securities by inspection or certificates from depositaries, and obtained information and explanations from officers and employees of the Company. We also made a general review of the accounting methods for the year.

In our opinion, based upon such audit, and subject to the contingent liabilities hereunder stated, the preceding balance sheet fairly presents, in accordance with accepted principles of accounting consistently maintained by the Company during the year under review, its position at December 31, 1933.

The Company is jointly liable with another company in respect to the following matters relating to a third company:

(a) Guaranty of interest on 6% $744,000.00 bond issue for 2 years to December 1, 1935—maximum contingent liability $44,640.00.

(b) Agreement by each to purchase $5,000.00 capital stock of third company at par, upon call—maximum liability $5,000.00.

(c) Agreement to purchase jointly as much of above 6% $744,000.00 bond issue as is offered at not to exceed a price substantially below par—maximum contingent liability $81,840.00.

Squires Company, Accountants and Auditors.

New York, N. Y., February 17, 1934.

[fol. 16246] CERTIFICATE

We have made a detailed audit of the balance sheet of Thatcher Manufacturing Company as at December 31, 1934, and of the statement of income and surplus for the year 1934. In connection therewith, we examined or tested accounting records of the Company and other supporting evidence, including confirmation of cash and securities by inspection or certificates from depositaries, and obtained information and explanations from officers and employees of the Company. We also made a general review of the accounting methods for the year.

In our opinion, based upon such audit, and subject to the contingent liabilities hereunder stated, the preceding balance sheet fairly presents, with reasonable accuracy and in accordance with accepted principles of accounting consistently maintained by the Company during the year under review, its position at December 31, 1934.

The Company is jointly liable with another company in respect to the following matters relating to a third company:

(a) Guaranty of interest on 6% $744,000.00 bond issue for 1 year to December 1, 1935—Maximum contingent liability $22,320.00.

(b) Agreement by each to purchase $5,000.00 capital stock of third company at par, upon call—maximum liability $5,000.00.

(c) Agreement to purchase jointly as much of above 6% $744,000.00 bond issue as is offered at not to exceed a price substantially below par—maximum contingent liability $81,840.00.

—— ——, Accountants and Auditors.

Auditor's Certificate

We have made a detailed audit of the Consolidated Balance Sheet of Thatcher Manufacturing Company and its wholly owned subsidiary Olean Glass Company, Inc. as at December 31, 1935, and of the related Summaries of Consolidated Income and Surplus of Thatcher Manufacturing Company for the year 1935 and of Olean Glass Company, Inc. for the last six months 1935 (period since acquisition). In connection therewith, we examined or tested accounting records of the two companies and other supporting evidence, and obtained information and explanation from officers and employees of the two companies. We also made a general review of their accounting methods for the periods under review.

In our opinion, based upon such audit, and subject to the contingent liabilities hereunder stated, the accompanying Consolidated Balance Sheet and related Statement of Consolidated Income and Surplus fairly present, in accordance with accepted principles of accounting consistently maintained by the companies, their consolidated financial condition at December 31, 1935 and the results of their consolidated operations for the year.

Contingent liabilities of Thatcher Manufacturing Company and its wholly owned subsidiary at December 31, 1935 are as follows:

(a) Customers notes discounted $32,914.31,

(b) Disputed and unpaid difference in freight rates on July-December 1935 incoming material $2,888.29.

In addition, Thatcher Manufacturing Company owns all the stock of a small subsidiary engaged in a different line of business, the accounts of which have not been included in the consolidation. The deficit of this subsidiary, subject to audit amounted since the date of its acquisition to $1,991.17.

Auditor's Certificate

We have made a detailed audit of the Consolidated Balance Sheet of Thatcher Manufacturing Company and its wholly owned subsidiary Olean Glass Company, Inc. as at December 31, 1936, and of the related Summaries of Consolidated Income and Surplus for the year 1936. In connection therewith, we examined or tested accounting records of the two companies and other supporting evidence, and obtained information and explanations from officers and employees of the two companies. We also made a general review of their accounting methods for the period under review.

In our opinion, based upon such audit, and subject to the contingent liabilities hereunder-stated, the accompanying Consolidated Balance Sheet and related Statement of Consolidated Income and Surplus fairly present, in accordance with accepted principles of accounting consistently maintained by the companies, their consolidated financial condition at December 31, 1936 and the result of their consolidated operations for the year.

Contingent liabilities of Thatcher Manufacturing Company and its wholly owned subsidiary at December 31, 1936, consist of Customers notes discounted $12,282.01.

In addition, Thatcher Manufacturing Company owns all the stock of two small subsidiaries engaged in different lines of business, the accounts of which have not been included in the consolidation. The deficit of these subsidiaries, subject to audit, amounted since the date of their acquisition to $1,041,35.

[fol. 16250] Thatcher Manufacturing Company, Elmira, N. Y.

Balance Sheet as of December 31, 1937

Earnings Statement for Year 1937

[fol. 16250a] Auditor's Certificate

We have made a detailed audit of the Consolidated Balance Sheet of Thatcher Manufacturing Company and its wholly owned subsidiary Olean Glass Company, Inc. as at December 31, 1937, and of the related Summaries of Consolidated Income and Surplus for the year 1937. In connection therewith, we examined or tested accounting records of the two companies and other supporting evidence, and obtained information and explanations from officers and employees of the two companies. We also made a general review of their accounting methods for the period under review.

During the year the parent company adopted for corporate purposes the basis established by the Bureau of Internal Revenue for determination of depreciation allowable for income tax purposes, in connection with which the amount of $199,145.36 representing depreciation for prior years disallowed was restored to surplus; the amount charged to operations for this year was $50,587.17 less than the amount which would have been charged under the higher rates in effect in prior years.

By resolution of the Board of Directors, the intangible assets of the parent company which were carried on the books at a value of $1,468,890.39, consisting principally of licenses and good-will were charged off, except for a nominal value of $1, against depreciation reserve thereon of $243,205.78 and the balance of $1,225,683.61 against Surplus.

We have been informed by the officers of Thatcher Manufacturing Company that neither the parent company nor its subsidiary has entered into future commitments for the purchase or sale of commodities which may at any time become a material factor in their financial position because of changes in market price.

In our opinion, based upon such audit, the accompanying Consolidated Balance Sheet and related Statement of Con-

solidated Income and Surplus fairly present, in accordance with the accepted principles of accounting consistently maintained by the companies, their consolidated financial condition at December 31, 1937 and the result of their consolidated operations for the year.

Contingent liabilities of the subsidiary at December 31, 1937, consist of Customers notes discounted $40,483.19.

In addition, Thatcher Manufacturing Company owns all the stock of two small subsidiaries engaged in different lines of business, the accounts of which have not been included in the consolidation. The defic-t of these subsidiaries, subject to audit, amounted since the date of their acquisition to $1,018.62.

(Signed) Squires & Company, Acountants and Auditors.

[fol. 16252] *Certificate Of Audit*

We have made a detailed audit of the Consolidated Balance Sheet of Thatcher Manufacturing Company and its wholly owned subsidiary Olean Glass Company, Inc., as at June 30, 1938, and of the related Summaries of Consolidated Income and Surplus for the first six months 1938. In connection therewith, we examined or tested accounting records of the two companies and other supporting evidence, and obtained information and explanation from officers and employees of the two companies. We also made a general review of their accounting methods for the period under review.

In 1937, Thatcher Manufacturing Company adopted for corporate purposes the basis established by the Bureau of Internal Revenue for determination of depreciation allowable for income tax purposes on audit for the years 1934 through 1936. The rates so established were used in 1937 and were likewise followed in the first six months 1938.

Intangible assets, which were originally acquired from predecessor companies on consolidation in 1905 or for cash or common stock in 1919, 1932, and 1933, at a cost of $1,468,890.39, were charged off in October 1937, except for a nominal value of $1.00, against depreciation reserve on intangibles or $243,205.78 and the balance against earned surplus.

In our opinion, based upon such audit, the accompanying consolidated Balance Sheet fairly presents in accordance with accepted principles of accounting consistently maintained by the companies, their consolidated financial condition at June 30, 1938.

Contingent liabilities of the wholly owned subsidiary at June 30, 1938 consist of Customers' Notes discounted $53,019.07.

In addition, Thatcher Manufacturing Company owns all the outstanding stock of two small subsidiaries engaged in different lines of business, the accounts of which have not been included in the consolidation. The deficit of these subsidiaries, subject to audit, amounted since the dates of their acquisition to $3,340.15.

New York, N. Y., August 9, 1938. Squires Company
Accountants and Auditors.

[fol. 16273] GOVERNMENT EXHIBIT No. 1604

IN UNITED STATES DISTRICT COURT

[Title omitted]

STIPULATION

It is hereby stipulated and agreed by and between the parties hereto, by their respective counsel, as follows:

1. For the purpose of these proceedings only and without prejudice to any other suits or proceedings between the parties hereto or to any other suits or proceedings to which any one or more of the parties hereto may be parties, or otherwise, the data set forth in the following exhibits attached to this stipulation, if and when such exhibits are offered in evidence upon the trial of this proceeding, shall have the same force and effect as though offered and received in this proceeding through the testimony of competent witnesses:

Balance sheets and profit and loss statements of Thatcher Manufacturing Company as of December 31, for 1938 and for 1939 (Exhibits A and B, respectively).

List of stockholders of Thatcher Manufacturing Company as of January 31, 1940, showing the number of shares owned or held by each stockholder (Exhibit C).

List of prices for milk bottles, showing the prices charged each of various classes of customers for quart, pint and half-pint sized milk bottles between April 1, 1938, and December 11, 1939 (Exhibit D).

Table showing the number of gross milk bottles sold and the revenue received therefrom by Thatcher Manufacturing Company for 1938 and 1939 (Exhibit D).

[fols. 16274-16275] Table showing the number of shares owned or held by Thatcher Manufacturing Company and each of its officers and directors on December 31, 1937, December 31, 1938, and December 31, 1939, in each of the following corporations: Hartford-Empire Company, Corning Glass Works, Empire Machine Company, Owens-Illinois Glass Company, Hazel-Atlas Glass Company, Anchor Hocking Glass Corporation, Ball Brothers Company, Liberty Glass Company, and Lynch Corporation (Exhibit E).

2. None of the parties, by entering into this stipulation, shall be deemed to have made any admission for the purposes of any other or different suit or proceeding to which any one or more of the parties hereto may be parties, regardless of whether such suit or proceeding is between any of the parties hereto or between any one or more of the parties hereto and any other person or persons.

3. None of the parties, by entering into this stipulation shall be deemed to have conceded the relevancy or materiality of any fact contained in the exhibits attached to this stipulation, and no objection shall be required to be entered on the record to preserve the right of any party to question such relevancy or materiality at any stage of the proceeding.

Ralph Emery, Counsel for Defendant, Thatcher Manufacturing Company. Samuel S. Isseks, Counsel for Plaintiff, United States of America.

	$328,116.63	$750,028.01
Balance at end of Period	$1,263,337.52	$1,263,337.52

NOTE: Thatcher Manufacturing Company acquired all of the capital stock of Olean Glass Co., Inc., of Olean, New York, manufacturers of packers' and liquor ware, on July 9, 1935 and the earnings of this subsidiary are included in the above figures.

The above statement of income and profit and loss does not include profits for the year 1938, subject to audit, of $202.31 for two small, wholly owned corporations engaged in different lines of business.

There was no change in the Capital Surplus balance during the year 1938.

[fols. 16278–16279]

AUDITOR'S CERTIFICATE

We have made a detailed audit of the Consolidated Balance Sheet of Thatcher Manufacturing Company and its wholly owned subsidiary Olean Glass Company, Inc. as at December 31, 1938, and of the related Summaries of Consolidated Income and Surplus for the year 1938. In connection therewith, we examined or tested accounting records of the two companies and other supporting evidence, and obtained information and explanations from officers and employees of the two companies. We also made a general review of their accounting methods for the period under review.

While we did not make a physical inspection of the inventories, we thoroughly tested them against perpetual inventory records and against production and sales records maintained by both companies.

Mold costs of $113,016.71 capitalized in prior years by the subsidiary company were charged off against Earned Surplus at the end of 1938.

We have been informed by the officers of Thatcher Manufacturing Company that neither the parent company nor its subsidiary has entered into future commitments for the purchase or sale of commodities which may at any time become a material factor in their financial position because of changes in market price.

In our opinion, based upon such audit, the accompanying Consolidated Balance Sheet and related Statement of Consolidated Income and Surplus fairly present, in accordance with the accepted principles of accounting consistently maintained by the companies, their consolidated financial condition at December 31, 1938 and the result of their consolidated operations for the year.

Contingent liabilities of the subsidiary at December 31, 1938, consist of Customers notes discounted $101,821.74.

In addition, Thatcher Manufacturing Company owns all the stock of two small subsidiaries engaged in different lines of business, the accounts of which have not been included in the consolidation. The deficit of these subsidiaries, subject to audit, amounted since the date of their acquisition to $836.31.

(signed) Squires & Company
Accountants and Auditors.

New York, N. Y., February 3, 1939.

		$5,641,261.31

Fully depreciated assets amounting to $1,057,909.56 were written off the books in 1939 against the depreciation reserves. Included therein are appraisal appreciation on the Elmira and Streator plants and the cost of the Cedar Grove plant (except for a small salvage value). This write-off has no effect on earnings or on the sound value at which the assets are stated on the Balance Sheet.

NOTE: Thatcher Manufacturing Company acquired all of the capital stock of Olean Glass Co., Inc., of Olean, New York, manufacturers of packers' and liquor ware, on July 9, 1935 and the earnings of this subsidiary are included in the above figures.

The above statement of income and profit and loss does not include losses for the year 1939, subject to audit, of $2,465.39 for two small, wholly owned corporations engaged in different lines of business.

There was no change in the Capital Surplus balance during the year 1939.

[fol. 16282] AUDITOR'S CERTIFICATE

We have made a detailed audit of the Consolidated Balance Sheet of Thatcher Manufacturing Company and its wholly owned subsidiary Olean Glass Company, Inc. as at December 31, 1939, and the related Summaries of Consolidated Income and Surplus for the year 1939, have reviewed the system of internal control and and the accounting procedures of the companies, and have examined or tested accounting records of the companies and other supporting evidence, by methods and to the extent we deemed appropriate.

While we did not make a physical inspection of the inventories of the Parent Company we thoroughly tested them against perpetual inventory records and against production and sales records maintained by the company. The inventories of the subsidiary were verified by test check of a substantial portion and were found in agreement with supporting perpetual inventory records, etc.

Although we did not request confirmation of Thatcher's accounts and notes receivable, we have carefully reviewed them as to age and collectability and have satisfied ourselves that the provision for doubtful accounts is adequate. Confirmations were requested on unpaid accounts and notes receivable of the subsidiary at the time of our examination and were obtained on a substantial portion thereof. At the time of our review more than 62% of the consolidated accounts and notes had been collected.

We have been informed by the officers of Thatcher Manufacturing Company that neither company has entered into future commitments for the purchase or sale of commodities which may at any time become a material factor in their financial position because of changes in market price.

In our opinion, the accompanying Consolidated Balance Sheet and related Statement of Consolidated Income and Surplus present fairly the position of Thatcher Manufacturing Company and its subsidiary at December 31, 1939, and the results of their operation for the year, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Contingent liabilities of the subsidiary at December 31, 1939 consist of customer's notes discounted $69,499.67.

In addition, Thatcher Manufacturing Company owns all the stock of two small subsidiaries, engaged in different lines of business, the accounts of which have not been included in the consolidation. The deficit of these subsidiaries, subject to audit, amounted since the date of their acquisition to $3,301.70.

(signed) Squires & Company
Accountants and Auditors.

New York, N. Y., February 3, 1940.
